MOB LYNCHES PRO-GERMAN IN ILLINOIS CITY

Fellow Miners Incited to
Riot By Alleged Dis-
loyal Remarks

**KNELT WITH ARMS FOLDED
AND PRAYED IN GERMAN**

Before Hung From Limb of
Tree One Mile From
City

(ASSOCIATED PRESS TELEGRAM)
Collinsville, Ill., April 5.—Kneeling with his arms crossed, Robert P. Prager, who was lynched by a mob last night at midnight for alleged disloyal utterances, prayed in German for three minutes before he was strung up, according to statements today by members of the lynching party.

Prager was a coal miner and yesterday at Marysville, Ill., in an address to the miners on socialism, is said to have made remarks derogatory to President Wilson. Miners there became angry and when they threatened to do him bodily harm he escaped to Collinsville, his home. Some miners, however, followed him collected a crowd, took Prager from his home and led him barefooted through the street waving an American flag.

The police, fearing violence, took Prager from the crowd and placed him in the city hall. Late a large mob gathered in front of the hall and demanded the man. Mayor J. H. Siegel counseled calmness but the police force of four was overpowered and Prager was found in the basement of the hall hiding beneath a pile of tiling. He was dragged down the street and beyond the city limits the crowd threatening to shoot if the officers approached.

One mile west of the city the rope by which Prager had been led was thrown over a limb of a tree. He was asked if he had anything to say. He said he was to drop to his knees and with his arms crossed to pray in German for three minutes. Without another word he was pulled into the air ten feet and allowed to hang. The mob then dispersed.

The police said that Prager while in their custody had stated that he was a registered enemy alien, that he was born in Germany but that he had taken out his first naturalization papers and had hoped to become an American citizen.

Collinsville is twelve miles east of St. Louis and is that section of southwestern Illinois that of late had been active housing many disloyalists.

OFFICIALS DEPLORE ACT;

FEARFUL OF REPRISALS.

(ASSOCIATED PRESS TELEGRAM)
Washington, April 5.—Attorney General Gregory took to the cabinet meeting today a report of the lynching of a German, Robert Prager, at Collinsville, Ill., last night for discussion with President Wilson. The government is expected to denounce the mob's lawless act, and express the hope that there will be no repetition elsewhere. A brief report on the lynching reached the attorney general today from U. S. Attorney Charles A. Karsh. Further details were asked.

Officials made plain that they deplored the incident, both because of the effect in this country and abroad because it is feared reprisals may be made in Germany on Americans.

**STATE OFFICIALS IN
CONFERENCE TODAY.**

(ASSOCIATED PRESS TELEGRAM)
Springfield, Ill., April 5.—After long distance telephone conversations today with federal and county authorities at the scene of the lynching of Robert Prager at Collinsville last night, Governor Lowden shortly before noon called a conference of Attorney General Edward J. Brundage and Assistant Adjutant General (Continued on Page 2, Col. 1.)

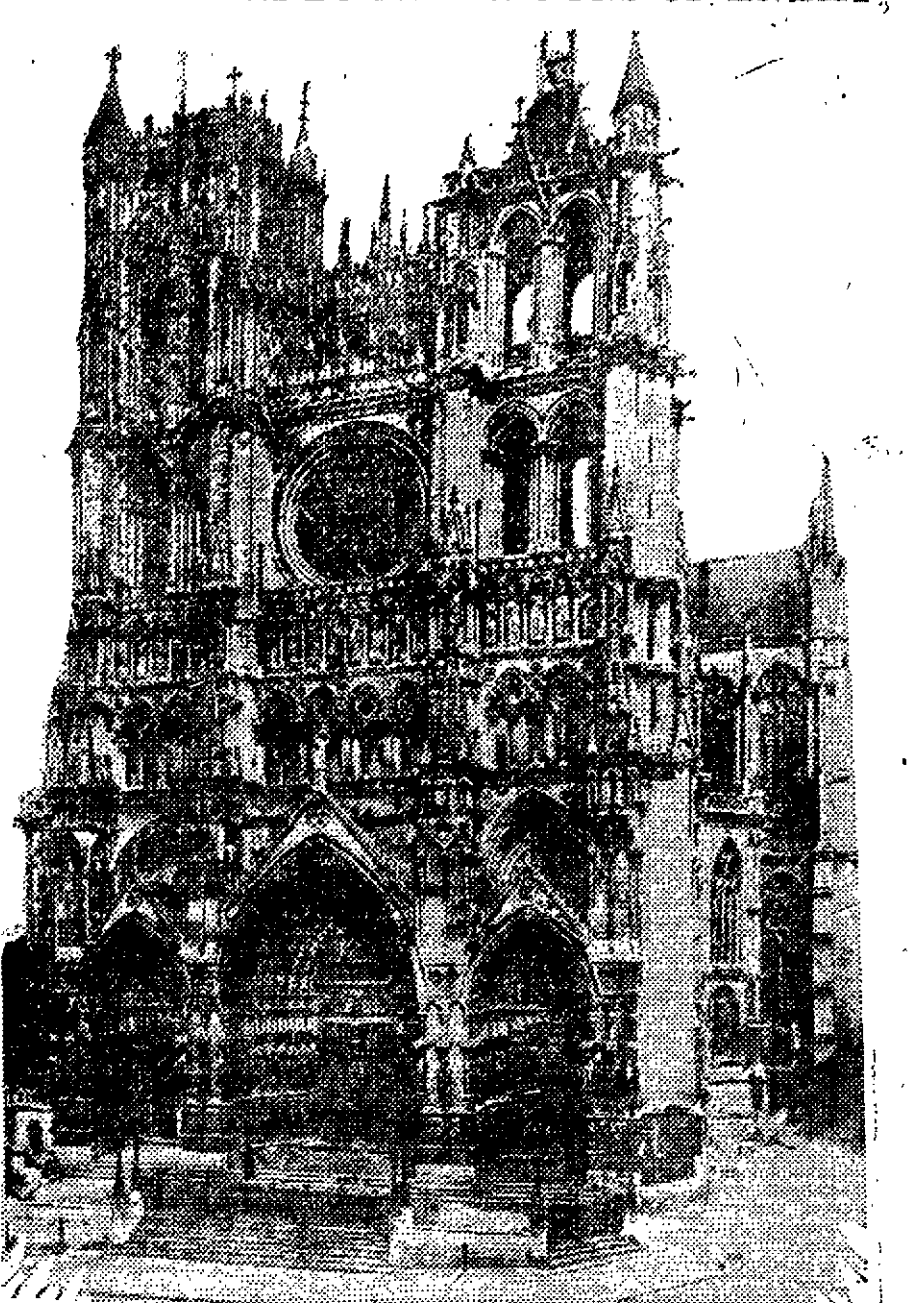

**DIRE NECESSITY
CAUSE OF ACTION**

(ASSOCIATED PRESS TELEGRAM)
New York, April 5.—Clothing, stockings and thread are now being distributed to the working men and women of Germany by the imperial clothing distributing board. According to new measures announced by the board in the German press in the latter part of February, it will supply workmen engaged in war industries with working garments. All such clothing for women and men will be withdrawn from the open market and distributed only by the imperial board.

It was announced also that stockings would be supplied and that about thirty million pairs of undyed stockings were being made. The order says that under the new distribution of sewing thread large communities will be supplied with 200,000 spools of thread.

A new method, the paper says, has been discovered for the manufacture of "linen" from paper. Such cloth may be boiled and washed it is added, "without danger of falling apart."

BEAUTIFUL AMIENS CATHEDRAL MARK TO TEMPT GUNS OF ENEMY

The cathedral at Amiens, the objective of the enemy in their efforts to cut off the transportation and communications of the allied forces, is one of the oldest and most beautiful in France and as such would be a tempting target to the foe in their love of vandalism and depredation.

LUMBER COMPANIES MUST DESIST FROM UNFAIR METHODS

(ASSOCIATED PRESS TELEGRAM)
Washington, April 5.—The federal trade commission today ordered 97 lumber companies in the west to desist from unfair methods of competition. The order applied also to Luke W. Boyce, a Minneapolis detective.

Procuring by bad faith or subterfuge of information intended only for bonafide customers of mail-order houses, furnishing to Platt B. Walker of Minneapolis, Minn., publisher of the Mississippi Valley Lumberman, of names of persons selling to mail-order concerns to enable him to interfere with the free purchase of supplies by those concerns, the employment of Boyce to obtain the business secrets of mail-order firms and the following of mail-order salesmen to embarrass them in their business dealings, were forbidden in the future by the commission.

Walker and the Lumberman publishing company recently signed a stipulation of facts in cases against them and an order was entered requiring them to cease and desist from practices complained of.

GERMANY'S WAR DEBT KEEPS PILING UP AT AN ENORMOUS RATE

(ASSOCIATED PRESS TELEGRAM)
Amsterdam, March 23. (By Mail.)—Germany's debt after the war will be thirty times what it was at the beginning, George Bernard, editor of the Vossische Zeitung declared in a lecture recently in Berlin in connection with the campaign for the eighth German war loan. He said that at the end of the war Germany probably would be faced with a debt of 150,000,000,000 marks as against 5,000,000,000 before the war.

Editor Bernhard said that 14,000,000,000 marks would have to be provided annually after the war through taxation. He estimated the empire's national wealth at 400,000,000,000 marks, a large part of which is state and communal property.

The latest inducement to subscribe to the war loan is a device by which a man may mortgage his prospective savings for the next ten years by means of a special insurance policy.

CALL PHOTOGRAPHERS FOR AIR SERVICE

(ASSOCIATED PRESS TELEGRAM)
Washington, April 5.—A call for four hundred photographers registered in the draft to mobilize at Madison barracks, Sackett's Harbor, N. Y., April 15, was sent out to fifteen states today by Provost Marshal General Crowder. They will be put in the air service.

The photographers will be asked to volunteer for the work but, if enough registrants do not come forward some will be inducted into the service.

A call also was issued for 2,825 registrants to be given a two months course in automobile driving and repairing and other mechanical work.

Local boards of Connecticut, Massachusetts, Michigan, Kentucky, Missouri and Texas were directed to furnish these men.

RUSSIAN IMPERIAL FAMILY RESTRICTED IN ALL MOVEMENTS

(ASSOCIATED PRESS TELEGRAM)
Moscow, Thursday, April 4.—Members of the former Russian imperial family living in the Crimea have been greatly restricted in their movements. They are not permitted to visit each other. All of them, even former princesses, are working in the gardens under armed guards.

All the members of the Romanoff family residing in the Petrograd district has been ordered exiled to Perm and Volodga, in the Ural mountain region. According to the Reanneye Outro, the Council of Soldiers and Workmen's delegates of Volodga has refused to admit them to the city.

THREE HUNDRED MACHINES IN THE AIR AT ONE TIME

(ASSOCIATED PRESS TELEGRAM)
London, April 5.—A tribute to American aviators with the British army in France who are "numerous and always brilliant," is paid by the correspondent for the Daily News. He says that American aviation mechanics also have rendered splendid aid.

Describing the air fighting on the western front, the correspondent says that never before in any army have airplanes been used in such great concentration. On one sector of the battle front as many as three hundred machines are in the air at one time. The use of machine guns on enemy troops, guns and transports, by low flying machines, he adds, has been carried to a point far beyond anything in previous experience.

GERMAN WARSHIPS LAND TROOPS IN FINLAND TOWN

(ASSOCIATED PRESS TELEGRAM)
Petrograd, Thursday, April 4.—Two German warships and several torpedo boats have landed troops in Finland and occupied the town of Eknes, southwest of Helsinki. Several Russian warships including four submarines were powerless to prevent the entry of the Germans into the harbor of Hango and the German ships sank three of the ships in the harbor to prevent their capture.

The commander of the Baltic fleet has sent a communication to the German commander concerning the German aims and protesting against the entry of German warships as a violation of the Brest-Litovsk peace treaty which guaranteed the security of the Russian fleet.

The arrival of the German fleet off the Finnish coast threatens the safety of the Russian fleet at Helsinki, which for lack of an ice-breaker, has been unable to reach the naval base at Kronstadt. The fleet includes two armored ships, a division of torpedo boats and submarines.

An anti-Soviet uprising among the Ural Cossacks in southeastern Russia is reported.

KANSAS CITY SUFFERS A BIG LOSS BY FIRE

**OFFICERS INVESTIGATING
REPORTS OF INCENDIARISM**

Six Firemen Injured and
Boy Killed By Fire-
man's Car

(ASSOCIATED PRESS TELEGRAM)
Kansas City, April 5.—Confronted by a loss that might extend beyond the first conservative estimates of \$3,500,000, the wholesale district, situated in that part of the city known as the West Bottoms, at the confluence of the Kaw and Missouri rivers, today began to take stock of the damage wrought by a fire which last night destroyed three city blocks of buildings and damaged more or less many others.

Thomas P. Flahive, chief of police, who, with fire department officials at first scouted the idea that the fire was of incendiary origin, today said that reports to him indicated the fire had "started in several places at the same time," and that he would make an investigation. He said he had no positive information that the fire was intentionally set.

Buildings occupied by eighteen business concerns were destroyed. The structures themselves were mainly of minor value, it was said, but the contents of several were valuable. The damage to the buildings not destroyed would mount high, it was believed.

Six firemen were injured, none seriously and Nicholas Stefek, ten years old was run over and killed by a fireman's motor car.

A series of explosions of chemicals sounded like a machine gun turned loose.

The old Astor house, famous years ago when the union station was located in the West Bottoms, was one of the buildings destroyed.

This morning officials of an underwriters association said it will be impossible to obtain more than a rough estimate of the loss, which they placed at from \$3,000,000 to \$5,000,000.

VALERIA SUNK IN IRISH SEA

(ASSOCIATED PRESS TELEGRAM)
New York, April 5.—The Cunard line steamship Valeria, a vessel of 5565 tons, registered, has been sunk in the Irish sea, according to word received here by insurance interests. The Valeria left here March 4 with cargo for a British port. At the office of the Cunard line it was said instructions had been received recently that reports of loss of steamers of the line must not be confirmed or denied.

BELIEVE ATTEMPT WAS MADE ON LIFE OF CONG. COOPER

(ASSOCIATED PRESS TELEGRAM)
Youngstown, April 5.—What police and members of the family say they believe was an attempt to kill Congressman John Cooper in retaliation for his activities in behalf of Congressman Irvine L. Lenroot, successful loyalist candidate in the recent Wisconsin senatorial election, failed last night.

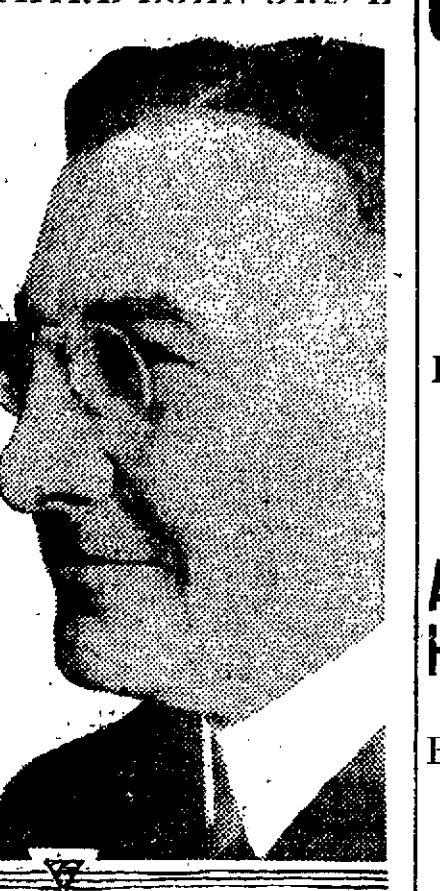

Police say a fume flue in the Cooper home was disconnected, permitting fumes from a gas furnace to circulate through the house. Representative Cooper had left for Washington but his wife, two children and a maid were overcome. Three neighbors who went to the Cooper house for a call also were overcome while they were trying to revive members of the Cooper family.

Members of the family say they saw two strange men near their home early last evening and this fact coupled with frequent telephone calls requesting word when Congressman Cooper would return from Wisconsin has led both the family and police to believe that the disconnecting of the flue was a deliberate attempt on the congressman's life.

58 HARVARD MEN DIED IN SERVICE

(ASSOCIATED PRESS TELEGRAM)
Cambridge, Mass., April 5.—Fifty-eight Harvard graduates and undergraduates have died in war service, according to records compiled by the university authorities. Of these, nine had been awarded the Croix de Guerre by France, and three from that number also were given the medal of honor property and their financial condition, similar to the valuation proceedings of railroads under way for several years.

George De B. Greene, chairman of the advisory trades committee of the third Liberty Loan campaign has recently completed the organization of the Rainbow division that expects to raise at least half of New York's nine million quota.

SENATOR-ELECT WILL SUPPORT THE PRESIDENT

(ASSOCIATED PRESS TELEGRAM)
Milwaukee, April 5.—United States Senator-elect Irvine L. Lenroot declared in a statement today that he would support President Wilson in the senate as he did in the house in all measures helpful in the prosecution of the war.

He said that Victor L. Berger, the socialist candidate, received too many votes and that the campaign of patriotic education must go on.

BOMBARDMENT OF PARIS SUSPENDED DURING FUNERAL

(ASSOCIATED PRESS TELEGRAM)
Amsterdam, Thursday, April 4.—A Berlin official statement today says that the bombardment of Paris was suspended on Wednesday because of the funeral of the councillor of the Swiss legation in Paris.

Mr. Strobelin councillor of the Swiss legation in Paris was one of the worshippers in the Paris church struck by a shell from the German long range gun on Good Friday and with many others was killed by the explosion. Germany has already expressed regret for the death of M. Strobelin to the Swiss foreign office at Berne.

ORDER IS MODIFIED.

(ASSOCIATED PRESS TELEGRAM)
Paris, April 5.—The Paris police authorities have decided to allow matinee performances in the theatres as usual on the condition that doors shall not be opened when a bombardment of the city by the German long range gun begins before the matinee hour and also that the place of amusement be immediately evacuated if the shelling begins during the performance. This is a modification of an order issued yesterday when the entire prohibition of matinees was announced.

NEWSPAPER MAN WINS A COMMISSION IN AVIATION CORPS

(ASSOCIATED PRESS TELEGRAM)
Cleveland, April 5.—Word was received here today that Harold S. French of Akron, former Akron newspaper man, has won a first lieutenantcy in the American aviation corps in France.

French enlisted in the American ambulance service a year ago and after arriving in France entered the British munitions convoy service, serving through the battle of Verdun and other engagements. Upon the organization of the American army in France his enlistment expired and he entered one of the schools established by the American aviation corps in France.

English Army Observers Watching Progress of Offensive State That Nothing Would Please Enemy Better Than Premature Employment of the Allied Reserves—Last Night's Battle Raged Along Thirty-Mile Line South of the Somme, French Standing Firm and Even Advancing in One Or Two Sectors

(ASSOCIATED PRESS TELEGRAM)
London, April 5.—The British have been pressed back a short distance on the front east of Amiens to positions east of Villers-Bretonneux, the war office announces.

The Germans concentrated troops early this morning near Albert, the war office announces. British artillery took them under its fire. In the neighborhood of Buequoy and in the Scarpe valley there was active artillery fighting during the night.

The Germans hurled large bodies of troops against the British between the Luce and Somme rivers, making repeated assaults. For the most part the enemy was thrown back with losses. The statement follows:

"Between the Luce river and the Somme heavy fighting continued yesterday during the afternoon and evening until a late hour. The enemy employed strong forces and delivered repeated assaults on our positions. These attacks were beaten off with loss to the enemy but our troops were pressed back a short distance to positions east of Villers-Bretonneux (about nine miles east of Amiens) which they now maintain."

"North of the Somme the enemy's has been active during the night in the neighborhood of Buequoy and in the Scarpe valley."

Hostile concentration early this morning in the neighborhood of Albert were engaged by our artillery."

The Germans this morning attacked the British forces on a wide front from Dernancourt, a few miles south of Albert, to Moyenneville north of the Somme, according to a statement published by the Evening Standard.

The chief points of attack, the newspaper says, were Dernancourt, Menin, Beaumont-hamel, Briquy and Moyenneville.

The Germans were repulsed with heavy losses except at Dernancourt where they made a slight gain.

There has been no attacks south of the Somme so far today, the statement says.

Both the British and French official statements admit slight withdrawals southeast of the city of Amiens, but on both wings of the battle front the entire allied troops have succeeded in repulsing all German attacks.

England is calmly watching on the maps the result of this latest offensive and every scrap of news about it is read eagerly. "Our difficulties and those of the enemy are fairly obvious," says the Standard. "We are suffering from a very heavy blow dealt to General Gough's army. The enemy on his side finds that the salient created through that local success is too narrow for his purpose. A good many people no doubt experienced a certain disappointment that no great reaction on the part of the allies followed the exhaustion of the German effort. It should be remembered that the battle is only in its earliest stages and nothing would please the enemy commanders better than a premature employment of the reserves."

DEFEAT GERMAN WITH GREAT LOSSES.

(Compiled from A. P. Dispatches.)

The French lines have held below Amiens and the Germans have been defeated with great losses in what probably constituted their most desperate effort yet to break in and cut off the communications of this important base from the south.

Similarly to the east of Amiens the British have maintained their steadfast defense and prevented the Germans from making any important headway here.

This battle which raged yesterday and virtually all last night was fought along a line of approximately 30 miles south of the Somme. Today, according to unofficial dispatches, the Germans switched their attack to the north of the river and engaged the British along a front of some 17 miles but again were unable to make any progress except a slight advance near the river.

In the great battle to the south of the Somme the contending armies fought with fluctuating fortunes, the French giving some ground in the northern sector of their battle area but closing the engagement with their line not only standing where it was along its southerly course but even advanced in one or two sectors where the Germans had been violently thrown back.

As a whole the entire line may be considered as the French official statements puts it, maintained in its entirety. So far as the German objective south of Amiens, the railway line, to Clermont, is concerned, the stupendous German effort resulted merely in the projection of the fighting front, a distance of probably not more than 2000 yards nearer to it opposite Castel, where the map shows the enemy still nearly three miles away from the railroad.

The British fought yesterday and last night chiefly on their southern front between the Luce and the Somme where the battle front was a continuous one, linking up with the operation against the French. Here the British were pressed back out of a small salient that had projected in the neighborhood of Warzee-Abancourt, just to the north of Marcelcave and almost directly on a line east of Amiens. This was the only advantage the Germans were able to gain in this whole sector after hours of almost constant attacking in heavy force.

The British recession was slight and the line they now maintain runs east of Billers-Bretonneux some 10-12 miles from the center of Amiens and about nine miles from its outskirts.

On that part of the battle front running eastward from Montdidier the French gave ground but on the contrary drove in about midway between Montdidier and Lassigny and against the greater part of Epineux wood, north of Orvillers-Sorel. They held this front against several counterattacks. Their success here was matched on the front north of Montdidier by their seizure of the Germans of St. Aignan farm, southeast of Grivesnes, which they likewise held against all assaults.

Striking at positions south of the Somme nearest Amiens, the Germans have renewed their offensive with heavy forces. In desperate fighting with the British and French, the enemy has been able to make only

GERMANS CUT DOWN AS A HARVESTER CUTS DOWN WHEAT

(ASSOCIATED PRESS TELEGRAM)
Paris, April 5.—The accounts of carnage in the German ranks which has been wrought by the fire of the allies, as given in the official communications and by correspondents at the front are more than confirmed by stories of the wounded in French hospitals.

"We cut down the Germans as a harvester cut down wheat," said a wounded lieutenant back from Lassigny. "We went on cutting them down until we emptied our cartridge boxes. Then our dragons on their mounts come right up to the firing line and brought us more cartridges."

A corporal horribly burned by gas but not at all down cast, said: "Yes, they fixed me up this way but that does not matter, I am revived. It is almost incredible—the way they fell in groups in companies. I shall survive my burns, but the thousands and thousands of Germans whom I saw fall never will be seen again."

Captain Vidal of the British army medical corps said after visiting a hospital in which were men who had been brought in from the Oise front said that the wounded with whom he talked were fully convinced the German losses had amounted 500,000. Of all the great numbers of wounded he had seen during the war, he added, those now coming back from the front were in the highest spirits. They were almost joyful, notwithstanding their wounds, he said, because of their faith in the approach of decisive victory and because they had seen that for all the damage done by the Germans to the allies, a vastly greater toll had been paid by the Germans.

Governor Lowden, in a statement declared he would use the force of his office to see that persons guilty of lynching of Prager were brought to punishment. Representatives of the office of the attorney general and the adjutant general were dispatched to the scene of yesterday's violence.

CAMP SHERMAN NOTES

(Associated Press Telegram)
Camp Sherman, Chillicothe, Ohio, April 5.—For declining assistance except to be helped back on his horse after his legs had been broken by another animal, Corporal John Doherty, Company G, 308th Ammu-

nition train, has been officially commended in battalion orders for his soldierly courage and horsemanship spirit. Confined to the base hospital, with his leg in a plaster cast, Doherty, whose home is in Cleveland, is the pride of his comrades. So far as could be ascertained he is the first select here to be commended in general orders for his courage.

Doherty's organization had been on the rifle range and was returning to the cantonment in the evening. Two miles from camp an automobile frightened the horse in front of the one Doherty was riding. The animal reared and kicked Doherty on the leg, knocking him from his horse. The driver of the automobile stopped his car and offered to take Doherty back to camp but Doherty declined.

He was helped back on his horse and pluckily rode the animal back to camp. Medical officers soon found that the leg had been fractured by the blow from the horse's hoof. Captain William Shellers, also of Cleveland and formerly of the famous Cleveland Grays, is battalion commander of the injured select.

Officers and selects have again been warned that the camp water situation is serious and the supply must be conserved wherever possible.

No bathing was permitted at all yesterday and a further curtailment of baths is looked for.

The cantonment has been on short water rations ever since the largest artesian well supplying the camp was damaged by spring floods a month ago. Repairs have been in progress on the well and in addition a new well with a huge capacity is being dug.

A visible index has been devised whereby the condition of any and every patient at the base hospital can be determined as soon as any inquiry is made about such a patient. Officers say this will obviate any delays in giving relatives and friends information about the sick.

Battery B, 323rd Light Field Artillery, today completed its work on the artillery range and returned to camp. Battery C, of the same unit will take the four field pieces to the range tomorrow, to remain for a week. But one additional battery remains to fire from the regimental area which Columbus selects will go to the range.

Four organizations were reported released from quarantine today for scarlet fever. They are: Company C, 319th field signal battalion; Company C, 323rd machine gun battalion; Headquarters company, 323rd Infantry and Headquarters company, 324th heavy field artillery.

The selects in the three signal battalions here are receiving expert instruction in wireless work. Telegraph and line construction is given as well as the radio work. Visual signalling is given both during the day time and at night.

INDICTED FOR THE MURDER OF COHEN

(Associated Press Telegram)

New York, April 5.—The county grand jury today indicted Morris Rothenberg as the man who, on Monday morning last, shot and killed Harry Cohen, a gambler, known to the underworld as "Harry the Yot." Rothenberg is charged with murder in the first degree.

Cohen, according to the district attorney, was shot to prevent him furnishing information useful in the prosecutor's anti-gambling crusade. Cohen was killed, said District Attorney Swann today, as the result of a well-organized plot. "I am convinced that every detail was carefully planned, including an alibi for the murderer."

RECEIVE BIDS FOR ROAD IMPROVEMENTS

(Associated Press Telegram)

Columbus, April 5.—The state highway department will receive bids April 25 for improvement of 22.86 miles of new state aid roads in nine counties, the total estimated cost of which is \$471,125. Contracts to be let include section 1 of Ohio river road in Clermont county, 4.12 miles; section K-1, of Cleveland-Meadville road in Geauga county, 2.52 miles; section C-1, 1.91 miles, and section C-2, 3.674 miles, of Lima-Sandusky road in Hancock county; section K, of Ohio river road in Lawrence county, 9.7 miles; section E, Ironton-Miller road in Lawrence county, one mile, and section P, Fremont-Port Clinton road in Sandusky county, 1.85 miles.

PHONE RAISE IS JUSTIFIED

(Associated Press Telegram)

Columbus, April 5.—Cleveland telephone rates, which were to have become effective on January 1 of this year, but which were held up pending an investigation, were declared today by the state public utilities commission to be lawful and not unjust. The commission however declared the service poor because of over loaded lines and insufficient force, and recommended a measured service.

The commission's report follows on a lengthy investigation in Cleveland, with the finding that the company's rates are not "unjust, unreasonable, excessive or unlawful." The commission says, however, that the service is inadequate, the company does not give prompt and efficient service and the force of employees is not sufficient. Lines are overloaded and an unusual use of the service combine to make the service poor, investigators found.

The recommendation for measured or "pay-as-you-use" service carries with it suggestion for immediate improvement for putting in such service at the main exchange and then in the branch exchanges, leaving the Prospect, Rosedale, Garfield and Eddy exchanges to be altered last.

GERMANS RENEW THEIR OFFENSIVE AND GREAT CANNONS AGAIN BOOMING

(Continued from Page 1)

slight gains at isolated points, being repulsed with great loss everywhere else.

How well the valiant Franco-British forces withstood the enemy onslaught is shown by the fact that on a front of nine miles north of Montdidier, the Germans used more than 100,000 men. Field Marshal Haig's center and right held its ground against the heavy attacks, while the left fell back somewhat around Hamel, south of the Somme and about 12 miles directly east of Amiens.

Between the Avre and the Luce the French and Germans contested all the ground bitterly. The enemy was determined to break through and used his masses of infantry in ten reckless assaults, the French mowing the Germans down with artillery fire. On either side of Moreuil, 12 miles southeast of Amiens, the French retired several hundred yards from the villages of Mouilly-Raineval and Morisel, the heights around which are still held by the French.

South of the Avre the heaviest fighting centered on Grivesnes. General Petain's men held stubbornly to their positions despite repeated efforts by the German infantry and then, in counter attacks, advanced their own lines into the enemy positions. Between Montdidier and Lesigny, where the German line bends, the heavy artillery bombardment which began early this week, continues violently.

The strength of the British line north of the Somme, which the Germans have not been able to budge in ten days, was shown by fruitless enemy attacks at Albert Thursday. Time and again the Germans have tried to advance from Albert, only to be repulsed.

Another sector of the long fighting front from the North Sea to Switzerland has been taken over by American troops and it is announced they now hold positions on the heights of the Meuse, south of Verdun. This position is almost directly north of the American sector northwest of Toul and has not been the scene of any marked activity recently. It joins the Verdun battlefield on the south. The enemy already has raided a listening post on the new sector, but the raiders were not able to advance further in the face of strong American artillery fire.

Government troops in Finland are reported to have occupied the eastern part of Tamerfors, north of Helsinki and which has been the center of much fighting recently. One thousand prisoners and some war material were taken from the rebels. It is reported both sides are showing much bitterness. The rebels, or Red Guards, are accused of terrible atrocities by their opponents, the White Guards, who are charged with similar acts by the Reds.

WILL INVESTIGATE THE RATES

(Associated Press Telegram)

Washington, April 5.—A general investigation of railroad freight rates on petroleum and petroleum products was ordered today by the interstate commerce commission.

The investigation was decided on in view of wide differences in the amounts and percentages of recent rate increases sought by the railroads. It appeared, said the order, that an equitable adjustment of rates could be effected only by a general investigation covering the whole situation.

The inquiry is understood to be undertaken principally to assist the commission in passing on rate questions and includes the Postal Telegraph company and a number of its subsidiaries, the Commercial Cable company of New York, Mackey Telegraph and Cable company, with several subsidiaries, the New York, Philadelphia and Norfolk, New England, the Kansas, American District, the Lehigh and Chicago, Milwaukee and Lake Superior Telegraph companies. The Western Union is not included.

THAT CHANGE IN WOMAN'S LIFE

Mrs. Godden Tells How It May Be Passed in Safety and Comfort.

Fremont, O.—"I was passing through the critical period of life, being forty-six years of age and had all the symptoms incident to that change—heat flashes, nervousness, and was in a general run down condition, so it was hard for me to do my work. Lydia E. Pinkham's Vegetable Compound was recommended to me as the best remedy for my troubles, which it surely proved to be. I feel better and stronger in every way since taking it, and the annoying symptoms have disappeared."—Mrs. M. GODDEN, 925 Napoleon St., Fremont, Ohio.

Such annoying symptoms as heat flashes, nervousness, backache, headache, irritability and "the blues," may be speedily overcome and the system restored to normal conditions by this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound.

If any complications present themselves write the Pinkham Medicine Co., Lynn, Mass., for suggestions how to overcome them. The result of forty years experience is at your service and your letter held in strict confidence.

Dodd's Kidney Pills Relieve After 20 Years' Suffering

Mrs. James Dotz of Zanesville, O., is one of the thousands of people who in the past 40 years have been relieved of the agonies of kidney trouble by taking Dodd's Kidney Pills. Only recently we received an unsolicited letter from Mrs. Dotz, which reads as follows:

"For twenty long years I suffered with heart disease and bladder inflammation. I had frequent chills, cramps in the muscles and suffered from headache and backache. I was often dizzy and had flashes of light and floating specks before my eyes. I could get no help until I started to take Dodd's Kidney Pills. Then I began to improve right away and six boxes of these Pills completed the cure."

"My little boy also had kidney trouble and was suffering from Dodd's Kidney Pills. I hope thousands of others, suffering as I have, hear of your wonderful remedy."

Mighty few people realize in time that kidney trouble is making its advances upon their health. They put off treatment until they say, "It'll be all right in a day or two." And the malady tightens its grip. Result: Bright's Disease, hospital treatment, doctor's bills—often death.

HERE'S LATEST PICTURE OF KAISER AND MAN WHO DOES HIS THINKING

The Kaiser in the field talking to General von Ludendorff, the brains of the German army.

The Kaiser's most recent picture shows him in the field engaged in talk with General von Ludendorff, the chief strategist of the German army and sometimes called the "uncrowned king" of Germany. The Kaiser and Ludendorff recently quarrelled over a disagreement in their plans for the big offensive. In the picture is to be seen Prince Henry of Prussia, to the Kaiser's left, and the crown prince between the Kaiser and Ludendorff.

MAY CALL DRAFTED MEN FASTER THAN FIRST PROPOSED

(Associated Press Telegram)

Washington, April 5.—Orders for the mobilization of the first large number of men of the first draft will go out to the governors of the states very soon.

Fifteen thousand men of the second draft are now mobilizing and the April call about to go out will represent probably more than the month's proportion of the 800,000 men who it previously has been announced would be called during the remaining nine months of the year. To call the 800,000 in equal monthly increments would mobilize them at about a rate of 90,000 a month. However, there is no assurance that this will be a fixed figure because the flow of men will be determined by the needs of the army in France. As General Pershing may call for especially qualified troops an average of 90,000 a month may be much exceeded or much reduced.

It has been announced that the men will be drawn as gradually and in as small numbers as possible so as not to dislocate industry and particularly agriculture.

So far as possible this plan will be followed. The immediate need of increasing the American forces in Europe, however to meet the German drive in the west is likely to result in calling the men faster than first proposed. For that reason the April quota undoubtedly will exceed its normal average. In fact if the need is pressing the entire 800,000 might be called in much less time than the nine months originally planned.

NEGRO PRIVATES EXECUTED FOR A COMRADE'S MURDER

(Associated Press Telegram)

Houston, Tex., April 3.—In a little array within the limits of Camp Logan, a score of persons this morning saw the first military execution held here since the camp was established—John D. Mann and Walter Matthews, negroes, privates of Company I, 370th infantry, paying with their lives for the slaying of Private Ralph M. Foley, Company G, 130th infantry.

The condemned men went to their death calmly and the entire proceedings lasted but a few minutes. Aside from the physicians and newspaper men witnessing the execution were Lieutenant Colonel John V. Clinkin, commanding the military police, his aide, a representative of Major General George B. Bray, commanding the 33rd division; Father J. J. O'Hearn, chaplain of the 108th training division, and necessary guards.

The crime for which the death penalty was inflicted by court-martial and approved by President Wilson, was the murder of Private Foley, who was guarding the negroes while they were engaged in cleaning up rubbish around the camp. Foley was stabbed in the heart and died two hours later. The negroes fled but were quickly recaptured and their trial began the following morning lasting three days.

GRANVILLE

(Special to the Advocate)

Granville, April 5.—Within the past few weeks there seems to be a general strengthening of the "morale" of the home contingent. Every one stands ready to do, to give or to loan whatever the government asks so far as circumstances permit. Even the children are busy and the record of some of the schools in the Thrift Stamp campaign, and even in the Liberty Loan bonds, is notable. It is a wonderful demonstration of what a community can do when its heart is in a cause. There seems to be no end to the things this township is willing to undertake, and very few things it isn't able to accomplish, if it sets out. The record for the sale of War Savings and Thrift Stamps which it held so proudly last week, can only be maintained, however, by constant activity for other townships or towns or communities can easily forge to the front. And next comes the drive for the Liberty Loan and the War Chest fund, the first an excellent investment, the latter a free gift. Here is where there must be perfect accord between the heart strings and the purse strings.

The first of the Conservative spring attractions was the delightful song recital given by Miss Jessie Burns, in recital hall last evening. Miss Burns sang with intelligence and handled her voice well, the "Bird Songs" by Lillie Leiman being especially charming. Mrs. Burns was on the whole, her best number, her high tones well sustained, clear and beautiful. Her diction was unusually good, her "parlante" style clearly covering any tendency of her low tones toward the end of the program—to disappear. The whole performance held all the attention of a real artist's recital. Miss Lois Lockhart accompanied the singer in faultless style.

The people of the Baptist church held a most enjoyable "get together hour," Thursday evening, preceding the annual church meeting. This was in the nature of an indoor basket picnic supper, instead of the more formal dinner which the ladies used to serve at tables at the cost of much time and effort.

Mrs. C. D. Coons, with her two children, has been spending several weeks at the home of her sister, Mrs. Ashly in Kenosha, Wisconsin. Mrs. Ashly has been very ill and has needed her sister's oversight of the family and the home.

The regular meeting of the Granville Mothers' club will be held on Monday evening at the usual hour.

The fortnightly meeting of the Women's township auxiliary of the Council of Defense, will be held Saturday afternoon at 2:30 at the work headquarters. Come early and help in several decisions.

Lt. Hervey A. Tribolet, '15, of Morgan Park, Ill., is visiting in Granville for a day or two.

Mrs. Frank Ray has a large class in Red Cross work in Alexandria and on Tuesday Mrs. Mary Fandy and Mrs. Charles Lucas, who have earned certificates from Washington, were sent there to direct the work in surgical dressings. Mrs. Ray is now in Red Cross work in Columbus.

At the high school chapel Thursday morning, Dr. Cockayne explained the plan of the Government of the boys between the ages of 16 and 20 in government service during the summer.

The emphasis is placed upon the fact that it is not the duty of the government that boys should drop out of school before the end of the year. No boy will be accepted without the consent of his parents, in any unit of work, the agricultural, the industrial, the domestic, or the military. Each boy is given a certificate of acceptance to the Boys' Working Reserve and will be given a bronze medal at the end of his service period if he has rendered faithful service.

The public school teachers have resumed work on the draft questionnaires, in preparing their own children.

The High school freshmen have contributed 29 books for the soldiers at the front and in the camps.

Granville High school has added four stars to its list of representatives. Bert Thompson, Dwight Sample, Earl Baker, and Charlie Williams, making a total of 26.

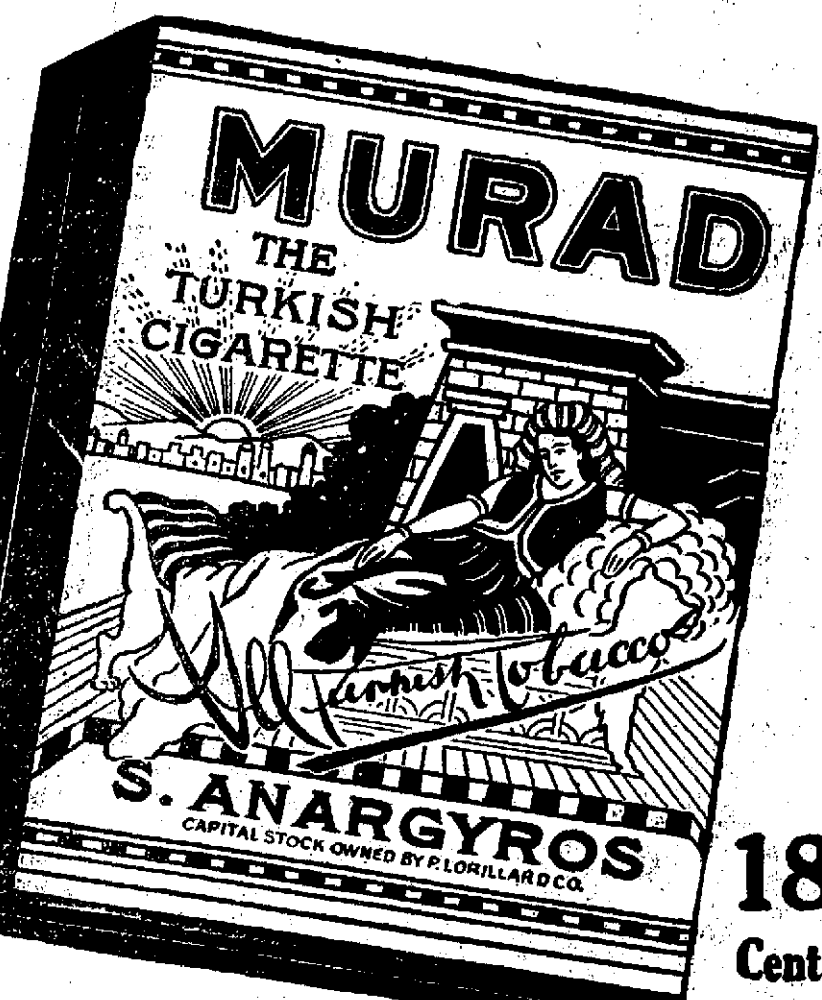

The special feature of the "Win the War Day" program presented this afternoon by the High school was the presentation of a \$100 Liberty Loan Bond to the Board of Education.

The program included the following numbers: Song, School Speech, "The Indies of Our Nation," at this time, Marion Cook; Piano Solo, Ethel Miller; Address, "Opportunities of Today," Bert Griffith; Readers' League, Dorothy Kathryn Howe; Duet, Nita Collins and Ruth Williams; Presentation of Bond, Committee; Acceptance, R. D. Williams, president of the board of education; friends of the school were guests on this enjoyable occasion.

The Granville Council is entitled to a service flag with one star in token of the entrance into active service of Prof. Willis A. Chamberlain, who is now a first lieutenant in a southern camp. Mayor Coons says he will have the flag hung in a window of the Mayor's office.

The call for books for the soldiers is being met, but not as rapidly as should be the case. Don't send discarded volumes which you are glad to be rid of. Send only the readable, the vital, the up-to-date. Of course a standard novel is always up-to-date, and many lesser works of fiction have proved their worth. Remember that soldiers are busy men and when they spend time in reading they should derive either diversion or instruction, as they may choose. Outworn volumes are apt to contain bits of these olden times.

Miss Frances Jones, a student in Bryn Mawr college, who has been sending a week of Bryn Mawr with her parents, Mr. and Mrs. J. S. Jones, was hostess at dinner last evening. Covers were laid for ten young people of Granville and Newark.

AMERICAN WOMEN LEAD THE WORLD

They Have Beauty, Health and Brains.

"A really beautiful woman is always a healthy woman," remarked one of our noted beauty specialists, "for true beauty comes from the blood and strong, steady nerves. Rich, red blood, the fountain of life and youth, shows itself in a clear rosy skin, solid flesh, fine form and a keen bright mind. Red blooded women, with strong nervous vitality, are sought after by men; they are the hope and leaders of the world."

American women lead the world in health, beauty and intelligence, and their number is increasing. They have learned the value of Iron and Phosphates in keeping them in perfect condition.

"The number of weak, pale, fagged out, run down and nervous women is bound to decrease rapidly, once the power of Phosphated Iron becomes more generally known," said a leading doctor. "There is not a reason in the world why women should not be strong, happy and a joy to look upon when the remedy is at hand."

"Phosphated Iron has accomplished wonders with my patients. It has restored health, vitality, strong nerves and happiness to whole families. It's the healthy, rosy, red blooded, strong, phosphate-fed nerve men and women that enjoy life and lead in every work." Think it over!

To insure doctors and their patients getting the genuine Phosphated Iron we have put in capsules only, so do not allow dealers to substitute pills or tablets. Insist on capsules. Evans' Drug Store and leading drug stores everywhere. — Advertisement.

HELP DAYLIGHT-SAVING.

In some places it is reported that the people are not merely setting their clocks ahead to comply with the daylight-saving idea, but are moving their customary hours ahead also. Boarding houses that used to serve breakfast at 7 o'clock, are now giving it at 8. Insofar as people do that, it will defeat the whole plan.

The purpose of the idea is, of course, to get people up in the morning an hour earlier, so that they can quit work an hour earlier, and have an extra hour in the evening. We must continue to work and sleep by the clock, even though it is set ahead.

In a week the benefits of the plan should be apparent. The change should be particularly popular among all who enjoy sport. Now in the long days they can have a nine-inning ball game after supper. All kinds of athletics ought to flourish as never before. The young men who used to hang around the streets of Newark after dark, can now have a decent length of time to get out and practice all kinds of games and exercises. After this type of fellows have seen what it means, they will never be willing to go back to the old hours of early darkness again.

It should also be a great boost to the garden work. Men who formerly had no spare time outside work hours, are now given a long evening that will be amply sufficient to take care of a small plot. And we will all see the difference when we get our bills for electricity, gas, or kerosene.

The whole thing depends upon unanimous co-operation. Stores, factories, churches, and entertainments, must stick by the clock on its new time. In a very short time people will forget about it, and wonder they didn't do it many years ago.

Some folks who are worrying the most about the German drive, were saying six months ago that it would be foolish for the United States to try to send any soldiers to France.

And some of the people who think it is queer the government has to ask everyone to take bonds, are the same ones who are blowing all their surplus in on sports.

Under present war news, the fact that our favorite pitcher sprained his ankle at the training camp is not the thrilling event of national interest it used to be.

The people who now feel it is not necessary for everyone to raise a garden, will be the ones who grow loudest next fall at the high prices of vegetables.

The people who fear the German menace most are often the same ones who help on the Germans by spreading the stories the spies circulate.

Now it remains to be seen whether those who cheer the patriotic speeches the loudest will be the most ready to take a Liberty bond.

The small boy is interested in war-garden week, as it promises to create a very favorable place to dig in to get worms for bait.

It is urged that every idle man be put to work. This is all right, only it takes the time of two men to make one idler work.

It was certainly kind of Fritz to come out of his safe trenches so that the British could kill him easily.

ORGANIZING WORKERS.

The shortage of farm labor will, of course, be helped out a little by the partial shutting down of some plants producing luxuries. Certain trades will be dull while the war lasts. Some of these workers will help out on the farms. From some quarters it is now reported that there is farm labor enough. But it will be very foolish to assume that the shortage of farm labor has been relieved to any sufficient extent.

Food production was terribly hampered by scarcity of labor last summer. And since then we have taken away many thousands of young men by the draft. The only safe way is to assume that as a whole the farm labor problem will be even more acute than it was last season.

The people of Norway, Me., worked an idea last summer that could be used almost everywhere to advantage. The village people agreed that they would give their spare time as far as possible to helping the near-by farmers. The people in the stores would go out on the farms early in the morning or in the late afternoon when there was not much business. A great many people found spare hours that they could give. Automobile owners transported the workers in automobiles, and food-raising became a community proposition.

The consequence was that the farmers of the town increased their acreage from 5000 to 10,000, they raised big crops, and they are enthusiastic over the idea.

In almost every village there are some men who are not busy all the time. They would perform a patriotic service if they would agree to give their odd hours to work on near-by farms. There should be committees appointed in every town to see what surplus labor could be secured for the farms, and thorough canvasses should be made. There are many towns where a lot more help could be secured, and in most places some additional labor would be rounded up.

COMMUNITY PLANTING.

The "town beautiful" idea is too frequently regarded as a costly proposition. No one can help being attracted by the idea of wide spaces, shaded streets, lands planted with shrubbery and trees. But the taxpayer frequently shies out at the idea of the expense. He may still cling to the idea, that beauty is a luxury and is necessarily costly.

Many of the most beautiful towns in our country are not rich towns. But back in past history some group of people was willing to do a lot of unpaid work. They would get out on holidays and other times, with carts, spades, watering pots. They would ransack the neighborhood for young trees and shrubs, and in the course of a day would plant a lot of them along the streets. It did not take such time.

Then public-spirited people would water the young saplings until they had taken root. In a few years they had beautiful streets coming along. Now people will drive from long distances to see these towns that attained beauty by no effort of the present generation—simply by the public spirit of their ancestors.

In most places today the tendency is to have tree-planting done at public expense. Under the existing demand for economy, far too few trees are planted. It is much better to get it done by voluntary effort.

The city of St. Charles, Mo., had a community-planting day last fall that was well worth emulation. They had a park tract of 10 acres in a rough condition. Volunteer workers were solicited. The school children were organized to go out in motors and transplant shrubs and trees from the roadsides. Hundreds of people assembled to do the planting. In a few years that wild land will be a public treasure, bringing delight to the resident, and spreading the fame of the town. Why not in Newark?

LAW-MAKING.

The number of lawyers in congress and the state legislatures is very large. In many states the great majority of the law-makers come from this profession. This makes other elements restive. The farmers are always agitating for more representation from their calling. There is a constant demand for more business men and more mechanics in the legislatures.

There are natural reasons why lawyers should be prominent in legislative halls. Their whole life being spent in the study of law, it is natural that they should have the gift for law-making. But even more influential is the fact that a lawyer can usually talk well in public, make a good speech, and meet opponents in the quick give-and-take debate.

A man may be an exceedingly valuable legislator without this gift. He may do splendid work in committee rooms in investigating social condition and shaping statutes. He may convince people in private conversation, and may become influential by getting others to represent him on the floor. But it is no could personally get his ideas over to the people, he would accomplish far more.

Wherefore is it exceedingly desirable that the public schools cultivate the gift of public speech. Every intelligent young man should regard his education as very faulty if he can't speak in public. If this form of ability were more commonly developed, the law-making bodies would not have so large a proportion of men from one profession. Other elements would be more conspicuous, and the legislative bodies would be more representative of the whole people.

Spirit of the Press

Neither Prussianism nor Bolshevism.

Another expression of the sweetly simple German ambition came from a Prince So-and-So in Germany the other day. He remarked that Russia threatens the world with disorder on the Bolshevik pattern and that it is his country's mission to impose "German world-order" on all the nations. Why should the world be forced to choose between autocracy and anarchy? The democratic nations believe that there is a happy mean between Prussianism on one hand, and Bolshevism on the other. We are supporting democracy as against either autocracy or anarchy. And who that has read the history of the world for the past 500 years, can doubt that in such a fight democracy will win?—Cincinnati Times-Star.

Grateful to the Briton.

How much America owes to the gallant Briton for standing between it and the Hun. The Briton have been killed by the thousands fighting for our cause, as well as their own. The Briton has saved this republic from a terrible peril. Through the smoke of the conflict we can see the British standing steadfast and dying for the Union Jack and the Stars and Stripes. Hereafter Great Britain and the United States are united by a bond of friendship that can never be broken. France belongs, too, and they will constitute the triumvirate of civilization that will make the earth a decent place to live. Let us once get through the present ordeal and democracy will be safe.—Ohio State Journal.

Price-Fixing Dangers.

The man who has a family to support on a salary of \$2,000 a year finds that the cost of food and clothing has doubled since the war began, while his salary remains the same. Naturally the question arises in his mind, if prices of food and clothing are to be fixed, why should not the price of labor also be fixed? If the government decrees that he shall pay more for his necessary supplies, why should it not also decree that he shall get a larger salary?—Boston Transcript.

RUSSIAN RECOGNITION.

(Springfield Republican.)

There has perhaps been too much disposition, in the diplomatic treatment of Russia, to be governed by a quite justifiable resentment at the way in which the Lenin-Trotsky regime betrayed Russia's allies and for that matter betrayed Russia itself. Slowness to recognize such a government was perfectly proper, the more so as it represented only a minority and dared not let a genuine national assembly meet. But if the Lenin-Trotsky government was not to be recognized, the serious problem was created of keeping in touch with the Russian nation till it should have evolved a stable and representative government.

It may have been quite correct to assume that Lenin and Trotsky could not last, and that the question of recognition should therefore wait. But it was a mistake to let the notion spread in Russia that what the allies were waiting for was a counter-revolution. In fact they seem to have drawn from the conclusion that the Bolsheviks could not last the too hasty inference that the next government would be reactionary. But what has happened is quite different. The Bolsheviks, a mere handful of theorists, have not been shot down by a man on horseback, but have been swamped by an immense spreading of the revolution, which now seems to be sweeping not only Russia, but Siberia and the Ukraine, and would quickly control Finland and the Baltic provinces if the reaction were not supported by German bayonets.

It seems increasingly probable, therefore, that whatever government in Russia the allies will finally have to deal with will be a popular government, and this makes it the more unfortunate that the Russian people should be allowed to think that the allies are in sympathy with the reaction. For this impression some excuse is given by the promptitude with which France recognized and gave financial support to the revolutionary Kiev rada—by the irony of fate, just as it was about to sign a separate peace with the enemy. Nor does Russia forget the enthusiasm over the military revolt of Gen. Korniloff, the lingering end of which in the Caucasus, was reported only the other day. There is an impression, too, that while the envoy of the only government which Russia has treated with courtesy and refused permission to visit the country, every emigre who favors the reaction is warmly welcomed. France once had a revolution of its own, and should know what effect such tendencies have on popular feeling.

In such a question we should not be too much influenced by the folly and what seems to us like the teacherv of the Lenin-Trotsky government. The real question is whether the allies want or do not want to take advantage of the growing resentment of the Russian people against German aggression.

WITH THE SHIPBUILDERS.

(New York Times.)

With the great offensive in France imminent, orders must have gone out to the German submarine flotilla to elevate the curve of "frightfulness" to a high point to break the spirit of the stubborn British, who were to be treated to a "blood bath" and disaster in the Cambrai sector. The tally of British ships torpedoed in the past week rose from seventeen (in the week ended March 17) to twenty-eight, of which sixteen were ships over and twelve under 1,600 tons. This execution have no effect on the fighting tempo of British sailors in the submarine zone, nor will the British people win; but to disregard in a Mark Tapscott spirit the meaning of the ugly figures would not be the part of wisdom.

The British and American patrols will be more on the qui vive than ever, keener on the scent, swifter in pursuit; the rank and file will do all that brave men can do in the intensified emergency. But what of the shipyards, British and American? Is there no room for the submarine score for the builders, the employers, the bosses, and the men? It is they and not the naval men who must beat the submarine and put an end to its game.

There should be a consecration to this common patriotic purpose. Build the ships next as well as day. Put soul as well as brawn into the work. The riveter's hammer can conquer the torpedo. Let the ring of it be heard clanging along the Atlantic and Pacific. Build for this month and next for this year and next year. Build for victory and liberty and lasting peace. Cover the sea with merchant fleets and the submarine will be driven from it. But not a day, not an hour, must be lost. The race is against time.

BAKER AND STANTON.

(Philadelphia Record.)

The intimations which come from abroad that Secretary Baker played an important part in breaking down the British opposition to a unified command of the allied armies, a point which this Government has urged strongly since the early days of the war, are interesting as showing the influence exerted by the Secretary in foreign circles. It is customary for some papers, invariably of the Republican persuasion, to sneer at the Secretary of War and to attempt to belittle his great work in building up an army incomparably the largest and the finest the United States has ever seen. There is absolutely no comparison between the quality of the American armed forces of 1918 and that of the armies of previous contests, notably the civil war and the Revolution. Mr. Baker is also sometimes contemptuously referred to as a pacifist and a weakling, without organizing ability, and not to be classed for a moment with such a truly wonderful person as Lincoln's Secretary of War, Edwin M. Stanton. The latter is held up as the ideal of what such an official should be, and a highly imaginary picture of his virtues is painted with incidental disparagement of his present successor.

Stanton's contemporaries and historians of the war have not been kind to him. Without going into an analysis of his character it may be

AMERICA'S GREAT DEBT TO FRANCE WILL BE PAID IN FULL

said that he was an Ohio lawyer, just as Secretary Baker is; without executive experience, arbitrary and so frequently unjust and unfair that he produced a prodigious crop of enemies. In his favor it is to be said that he was extremely energetic and that he was absolutely loyal to Lincoln. General Grant, who knew Stanton through and through, has given a sketch of him in his memoirs, which may be accepted as reasonably authentic. Comparing him with Lincoln, the ex-President wrote:

Stanton never questioned his own authority to command, unless resented. He cared nothing for the feelings of others. In fact, it seemed to be pleasant to him to disappoint them to gratify his own will. He was in assuming the functions of the Executive, or in acting without advising with him. If his act was not sustained he would change it—if he saw the matter would be followed up until he did so.

Mr. Lincoln was not timid, and he was willing to trust his generals in making and executing their plans. The Secretary was very timid, and it was impossible for him to avoid interfering with the armies covering the capital when it was sought to defend it by an offensive movement against the army guarding the Confederate capital. He could see our weakness, but he could not see that the enemy was in danger. The enemy would not have been in danger if Mr. Stanton had been in the field.

The present Secretary of War does not suffer by comparison with his predecessor as described by those who knew him best. It is only the armchair critics of today, the partisan detractors, who can discover extraordinary virtues in the official of more than half a century ago, but fail to detect any merit in the head of the Department of War in 1918. Impartial history will record a different verdict.

THE NEXT DRIVE.

(Cleveland Plain Dealer.)

Austria's massing of men on the Alpine battlefronts is taken to indicate preparation for a new attempt to overrun northern Italy. If this attempt is made Austria must stand alone. For the present Germany is occupied in France.

Hitherto Austria has failed in every warlike undertaking she has attempted to carry through alone. She received a humiliating defeat at the hands of Serbia and was helpless against the Rumanians till the German armies of Falkenhayn and Mackensen came to her aid. The Russians were victorious in every campaign in which Russians and Austrians were the sole participants. Against Italy the Austrians could make no headway till powerful German armies assumed the greater part of the burden.

Judged by past achievements the Italians will be able to hold their own with the Austrians. Yet it is not to be forgotten that Austria now is able to throw all her army into a single theater. Russia and Rumania are out of the war. The Bulgarians are holding the lines in Macedonia. Some Austrians have been sent to France to co-operate with the Germans and to illustrate the unity of the central powers. If the Austrians now strike they should be able to strike harder than ever before. But the Italians, powerfully aided by the French and British detachments which have remained in Italy since last fall, are better prepared than ever before to meet an attack.

The Italian defensive positions are not ideal, but during the winter they have been greatly strengthened. A new Austrian drive will once more test the spirit of the Italian people, but there is every reason for confidence in the outcome. What Hindenburg has failed to do in Picardy the Austrians cannot accomplish in Venetia.

That two sorts of letters have been employed in the printing of books? What have been called Roman letters prevailed from the 5th to about the close of the 12th century, when they gradually began to pass into what have been called Gothic letters, which continued until the 16th century when, in most European countries, they were superseded by Roman letters. The Gothic type was known as Black Letter. Books in black letter, being the earliest, are highly prized by antiquaries and bibliomaniacs.

THE WAR GARDENER'S DILEMMA

EVERY home should have a war garden and a flock of chickens. If chickens and garden get mixed—to the detriment of the garden, be patient. The U. S. Food Administration has issued regulations to poultry dealers stopping the dealing in freshly killed or live hens. All of the nation's hens are needed in these times of war, as layers. The national stock of eggs must be increased. In the matter of war gardens, remember that Germany would probably have collapsed during the years of 1916 and 1917 had it not been for the enormous crops raised in war gardens that supplemented the farm crops. In America the need of war gardens is imperative. Plant non-perishables as far as possible. Beans, onions and potatoes will keep for winter use.

Y. M. C. A. WAR SCHOOLS FOR DRAFTED MEN

War schools for young men of draft age who desire to fit themselves by study and physical preparation to serve as non-commissioned officers in the second draft army are now being established by the Y. M. C. A. in the larger cities of the United States. Classes in military instruction are already in progress in Detroit, Brooklyn, New York, Minneapolis, Chicago, Louisville, Portland, Los Angeles and Baltimore. It is announced by the national war-work council of the Y. M. C. A. in a bulletin issued today. Other city associations are planning to adopt a similar schedule.

The Y. M. C. A. war schools are open to men of military age, though drafted men will be given the right-of-way in the school work. The idea, it is stated, was suggested by military officials because of the need of men with previous military training.

Classes in military drill and tactics are conducted by commissioned army officers. Army French also is taught. In addition, the curriculum includes first-aid courses, which are of special value to men wishing to join the medical division. Radio, telegraphy and telephony are open to those men entering the signal corps.

A series of military lectures also is included in the Y. M. C. A. courses, in which a general survey of the war is made by army officers and others of expert knowledge and training.

Emphasis is placed on the physical side of the men's training and gymnasium classes are held in setting up exercises, boxing, wrestling and military drill. Much of the physical work which the army Y. M. C. A. does for the men in the army camps and cantonments can be adapted to the gymnasium floor for the benefit of prospective officers.

Sessions of the war schools are held two and three nights each week, and are grouped in divisions of three, six and twelve months. During the next month it is estimated that from 15,000 to 20,000 new officers will be required to train the men of the new draft. The Y. M. C. A. war school is designed to help candidates for commissions achieve their posts in the shortest possible time.

LOOK AT CHILD'S TONGUE IF SICK, CROSS, FEVERISH

Hurry, Mother! Remove poisons from little stomach, liver, bowels.
Give "California Syrup of Figs" at once if bilious or constipated.

coated, it is a sure sign that your little one's stomach, liver and bowels need a gentle thorough cleansing at once.

When peevish, listless, pale, doesn't sleep, doesn't eat or act naturally, or is feverish, stomach sour, breath bad, has stomach-ache, sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of the little bowels without griping, and you have a well, playful child again.

You needn't coax sick children to take this harmless "fruit laxative," they love its delicious taste; and it always makes them feel splendid.

"California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Beware of counterfeits sold here. Dandruff Heads Become Hairless

If you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't.

It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it.

You will find, too, that all itching and digging of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.

Preventable Causes of Billions of Dollars Damage: Insects, Plant and Animal Diseases, Mice, Rats, Ground Squirrels and Other Rodents—Specialists Will Prosecute Campaigns Vigorously

Every effort should be made to prevent losses in production, storage and transportation of food in these days when the conservation of every product contributing to our food supply means so much, states the U. S. department of agriculture in its 1918 campaign just announced.

Billions of dollars are lost every year, says the statement, from such preventable causes as insects, plant and animal diseases, carelessness in breeding, predatory animals, rats, mice, ground squirrels and other rodents. These losses are being held in check by present agencies and can be further greatly reduced or prevented at a cost which is insignificant when compared with the amount of damage done. Methods

HELPING MILL-WORKERS TO GROW FOOD GARDENS.

"If the south neglects this year to provide her own food and feed she is likely to suffer serious privation and she will be a burden upon the nation which may prolong the war and even imperil our victory."

Acting promptly on this statement from the Department of Agriculture, the superintendent of a mill at Calhoun Falls, S. C., issued a poster quoting this statement and advising employees to "get busy with your spring garden." Free garden seeds will be furnished by the mill as well as the poster said, and five cash prizes for the best gardens with three special prizes were offered. Further, the company agreed to plow gardens where it was desired and to furnish meal and acid fertilizer at a nominal price.

of controlling many of these harmful factors are now well-established and should be more widely adopted. A large loss on the farms of the United States results from the improper care of manure, and its careless and ineffective use. In these times of scarcity of fertilizing materials more attention than ever should be paid to the conserving of plant food from this source.

Animal Diseases and Parasites. It has been estimated that diseases of animals, such as hog cholera, tuberculosis, contagious abortion, dourine, Texas or tick fever, and others, cause annual losses aggregating many millions. Many of these diseases, to a still greater extent, can be prevented or their ravages reduced considerably. The department has greatly extended its facilities for dealing with these matters and will assist farmers in every feasible way.

Insects and Plant Diseases. The annual losses from insects and plant diseases are enormous. It has been conservatively estimated that smuts of wheat alone cause losses aggregating 60 million dollars annually. The staff of specialists in the department of agriculture, as well as the staffs in state institutions, has been increased, and in co-operation with the forces in the various states, they will be able to render more effective assistance to farmers during the coming season than ever before.

Predatory Animals and Rodents. The losses from animals injurious to agriculture and to animal husbandry are enormous. Native rodents cause losses of grain, forage and other agricultural products estimated at more than \$150,000,000.

25 Years Ago

There is a good time in store for those who attend the supper to be given at the Palace Hotel tomorrow night in the male members of St. Francis de Sales church. Mrs. Minnie Conley has returned to her home in Haddonfield, N. J., after a pleasant visit with her parents, Mr. and Mrs. C. O. Smith of this city. Mrs. Grace Young returned home today from Zanesville where she was attending a reception given by the Misses Van Fossen. Marriage license was issued to Samuel D. Allbaugh and Ledia F. Shaw. Mrs. W. J. Fulton entertained with an Easter reception at her home in church street. She was assisted in receiving the guests by Mrs. C. C. Jones and Miss Pearl Wintermute. Misses Florence Fulton and Louise Jones, who waited at the door and Lucile Harrington and Lillian Franklin, who served lemonade.

MORE BEANS, PEAS, PEANUTS.

As important features of its supplementary program for feeding the nation, its armies, and the allies, the United States department of agriculture recommends that great attention be paid to the production of beans, peas, and peanuts. On these subjects the program states:

"The production of beans and peas should be increased in regions to which they are adapted, because of their high food value, keeping qualities, and availability for domestic or export trade.

"Soy beans and peanuts should be increased in order to supplement beans and peas as human food, as a source of much-needed oil, and as animal feeds.

"The production of beans last year in the six leading states increased from 10,715,000 bushels to 15,701,000 bushels, and peanuts from 35,324,500 bushels to 60,220,000 bushels. But these increases

SOME 1918 GARDEN NEEDS.

Market gardens near large consuming centers should be increased so as to meet, as nearly as possible, the needs of the community, and in order to obviate the necessity of transporting such products from distant points. The planting of home gardens, especially for family needs and for preserving food for future use, again should be emphasized. The commercial production of perishables generally should be increased above normal wherever it is reasonably clear that transportation and marketing facilities will be available.

proved to be greatly needed, and there is every indication that large increases will be readily absorbed in 1918.

"The peanut is especially valuable because of the oil it contains, from which the need is great. In the south, especially, soy beans and peanut meal are proving very satisfactory as partial substitutes for wheat. Both soy beans and peanuts are of great value as forage crops."

HOW INDIANA RESPONDED.

As a result of the campaign for increased food production, one Indiana town of less than 5000 people had 1384 gardens last season. In eight towns of another Indiana county 98 per cent of all vacant lots were under cultivation. In three townships in still another county, where special effort was made to increase food production, it is estimated that ten times the average amount of garden crops was produced. Canners for canning fruits and vegetables were placed in each consolidated school in one county, and were loaned to communities which desired to use them.

Mr. and Mrs. Thomas Hall entertained Mr. and Mrs. William Hall, Mr. and Mrs. Anna Hall, Mr. and Mrs. Lee Boyd and daughter, Mr. Nathaniel Taylor and sister at dinner Easter Sunday. The ladies of the Disciple church will give a patriotic entertainment and supper at the Town Hall Saturday evening, April 6. Proceeds to be used in purchasing a carpet for the church. Miss Harris is spending his Easter vacation with friends here. Mr. and Mrs. Dale Cochran and son Lake of Hunt's Station, visited Mr. and Mrs. John Cochran Sunday. There is an epidemic of three-day measles in this vicinity at present. Those on the sick list are Dr. Stone-korler and Thomas Earlywine.

A Business Proposition

Laying aside for the moment the consideration of patriotism which in itself demands the purchase of War Savings Stamps, the government's offer of W. S. S. should appeal to one's good business judgment.

A sum invested in W. S. S. today is absolutely safe because the resources of the United States are pledged to its payment. It becomes more valuable every month. It is not taxable. If registered, without cost, it can not be lost or stolen and Uncle Sam promises to pay back both principal and interest at any time upon 10 days' notice. If the money is left with the government until January 1, 1923, the investment pays 4.27 per cent interest.

The people of Licking county in the first three months of 1918 bought over \$300,000 worth of W. S. S. This rate of purchase must continue through the year. We must buy \$4,000 worth daily all year if we do what the government asks. This amount is greater than the investment our people are asked to make in Liberty Bonds this month. Don't imagine that War Savings Stamps are intended for children alone. If all of the children in Licking county buy three times as many stamps as their quota calls for it still leaves more than \$1,000,000 worth for the grown-ups of this county.

Start a War Savings account today for yourself and for every member of your family.

Uncle Sam offers you \$100 for \$83 invested in War Savings Stamps this month or \$1,000 for \$830. Join the \$1,000 War Savings Society by buying 200 W. S. S., the maximum amount one person is allowed to hold.

Why Germany Lost In World's Greatest Battle

"We are at the decisive moment of the war," declared the Kaiser on March 21st as he launched his tremendous armies against fifty miles of the Allied front in France in the greatest battle of this or any war; and on the same day he declared that "the prize of victory must not and will not fail us," and announced warningly that this prize "was no soft peace but one which corresponds with Germany's interests." A week later, when the first impetus of the colossal onslaught had made a dent twenty-five miles deep in the bending but unbroken battle-line of the Allies, General von Ludendorff, who is said to be the brains of the German General Staff, announced "that victory has been won," and added significantly "but nobody can see what will result from it."

But victory was not won, as the best informed war-writers everywhere remind him. "So long as the battle ends, as there is every prospect that it will end, with our armies and those of our Allies intact and in a position as strong as they have ever occupied, Germany will have failed and failed decisively," declares Major-General McLachlan, Military Attaché to the British Embassy at Washington.

The leading article in THE LITERARY DIGEST for April 6th deals with the terrific engagements that are raging on the Western front in France. It summarizes public opinion from all quarters on the results to date and on the ultimate outcome. Other articles of very great interest are:

Where to Obtain FACTS To Refute Enemy Propaganda

"How much have we done in the War and how well," is answered this week to the satisfaction of every patriotic American in the article describing the activities of the various departments of the Government.

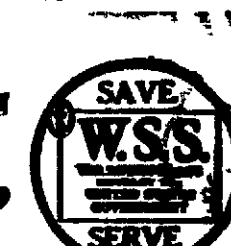

This exclusive and authoritative survey will thrill and hearten every reader. The article describes the immense additions that have been made to our army; the ceaseless activity in the Ordnance Department in the production of munitions of war; how the Quartermaster Corps is working out the transportation of men and material; how our soldier boys are fed; how supplies are bought and by whom; how

the health of our soldiers is guarded; what the Aircraft Board has done; activities of our coast artillery; the gratifying progress of our navy step by step; how our sailors are clothed and fed; the extent of our wireless operations; mobilization of the Marine Corps and the Naval Reserve; how the State Department is conducting war business; how war expenses are being met; what is being done by the War Shipping Board, by the Food and Fuel Administration Bureaus, etc. In fact, all the principal departments of the Government have been investigated. This information will effectually refute enemy propaganda designed to weaken our war effort.

Tonight and Tomorrow

Edith Storey, Metro star, is a player possessing great dramatic talent and athletic prowess which stand her in good stead in her portrayal of Carina in the drama, "The Eyes of Mystery."

This gifted star was born in New York City. Both her father, William Chase Storey, and her mother, whose maiden name was Thorne, were born in the Metropolis. It was while studying in the public schools of New York City, where she received her education, that little Edith became imbued with a desire to act.

She made her professional debut at the age of ten in a small part with Eleanor Robson in "Audrey." Her dramatic ability was so marked that she was immediately engaged to play a child's part in "The Little Princess," and the next season played one of the children in "Mrs. Wiggs of the Cabbage Patch." Miss Storey remained with this attraction for three seasons and eventually as the great order played all of the children's parts in the production. Her next engagement was with "Rebecca of Sunnybrook Farm," in which she played a girl of "sweet sixteen."

She began her motion picture career with Vitaphone, with whom she remained for several years. One year of this time she was loaned to the Medley company for a series of Western pictures, and the most notable productions in which Miss Storey has appeared are "The Christian," "Mr. Aladdin Broadway," and "The Captain of the Gray Horse Troop."

"The Eyes of Mystery" is Miss Storey's initial appearance in Metro pictures, and its vital dramatic qualities give her splendid opportunity to display the talent that has made her favorite with the motion picture public.

Sunday

Mary Miles Minter, beauty bright of the motion picture screen, has a brand new idea to give her speed in the latest American-Mutual production, "Powers That Prey." The new drama, written by Will M. Ritchey and directed by Henry King, is one of the most striking bits of pictorial construction put out of a motion picture studio in some time. It is a newspaper story, in which Miss Minter assumes the role of Sylvia Grant, a pretty Bryn Mawr girl, daughter of a metropolitan newspaper editor.

Sylvia discovers that certain grafters and ostensible leaders of society are trying to run her Dad out of business by making him espouse their crooked interests or sell out. She takes charge of the paper while her father is away and makes half dozen exposes so sensational that the "interests" are glad to capitulate. It is a highly interesting story displaying Miss Minter in her very best ingenue form.

Auditorium

Experience.

Manager Fenberg of the Auditorium is giving his personal guarantee for his attraction "Experience," which comes to the Auditorium next Wednesday and Thursday. The company that comes to Newark is the same that appeared at the Hartman theater Columbus a few weeks ago (this was a return date for that city) and absorbed the attention of the citizens to an extent unparalleled in Columbus theatrical history and it is hoped that Newark show goers will give it the support it deserves here, for if the

management cannot give good companies that visit our city good business he will be unable to get them to play Newark.

The managers of the above attraction have promised Mr. Fenberg that if "Experience" draws business here, he will get their attractions next year which include some of New York's best successes, several of which we might mention, they being "Chu Chin Chow" and "The Wanderer."

The play "Experience" which tells the eternal, never dying story of youth—the average young man of today—his early struggles, his venture into the great world to seek fame and fortune, his trials and temptations, and his final triumph over evil and wickedness through hope and love.

"Experience" is the most wonderful play in America and it is one that those who see it will never forget. It has been Mr. Fenberg's good luck to arrange through special arrangement with the producers who he personally knows, William Elliott, P. Day, Costello and Morris Gest, to play Newark for two days, this being made possible owing to the massiveness of the production, it would be an impossibility to play one night stands as it takes two cars to transport the scenery, effects, etc.

Mr. Fenberg states that the Newark show goers have given him great support, but this attraction, for they must turn out for strong if they will arrange to have the big Dillingham musical show "Chu Chin Chow" play here before the theatrical season is over this season.

The Eternal Temptress

"Beauty hints" and reputed owner of half the royal jewels of Russia, shows all of the beauty and some of the elms for the first time on the screen under the proper caption, "The Eternal Temptress" at the Auditorium for two days commencing today. The story is also appropriate to the somewhat foreign, romantic beauty of the star. It treats of love, intrigue, jealousy, retribution in a fashion somewhat better than the usual dramatic treatment of these large subjects. Lina starts in a sort of modern slum—in an Italian widow and princess living in Venice.

The usual serious, presentable boy is in love with her. He is the usual white haired father who has the usual white haired friend. Into this situation there comes the scheming of three or more villains, chief among them an Australian plotter who knows of the boy's infatuation and vice of making love to the temptress in order to make her love him. Figures that said lover will spend even more money than he has been to please the princess and will be given to a place where a bribe will be a temptation to him.

At this moment a plotting count plans to offer a sum of money for the recovery of the "papers" in question. You must see it to get the rest of the story. It is shown today and tomorrow together with the Hearst-Pathe News, also "Tender Memories," the fifth of the "Son of Democracy" series.

Auditorium Notes

"Tender Memories" is the fifth of the Paramount-Chaplin pictures, "The Son of Democracy" to be shown at the Auditorium and is being shown today and tomorrow, together with the Paramount feature "The Eternal Temptress" in which Lina Cavalieri, noted singer is seen.

The Hearst-Pathe News No. 26 is full of so much interesting right up to the minute world news and will be shown today and tomorrow. Some of the big features are scenes and around Venice, Italy, in war armor. That beautiful city of palaces and bridges is now clad in its war armor to protect the priceless art treasures from the Huns.

The negro troops who are leaving New York are given a great send off in that city. You see it all in this the greatest film newspaper of the world and it is seen only at the Auditorium.

A laugh getter is promised Auditorium picture fans next Sunday when the William Fox sunshine comedy "The Self Made Lady" is seen. This is the of Henry Lehrman's biggest successes and is sure to please our patrons.

In speaking of this feature Mr. Lehrman said, sometimes it's necessary to train the actor, rather than the animal. Such an occasion arose in making one of the comedies. The point had been reached where the ear of a play-bird was actually supposed to be in the mouth of a lion. The actor demurred at this scene.

"You needn't be alarmed," said the man in charge of the animals. "This lion killed two men but this disposition changed since then." So the scene was gone through.

Jewel Carmen

The story of William Fox photoplay, "The Girl with the Champagne Eyes," starring Jewel Carmen, opens at the Auditorium bound for San Francisco. Nellie Proctor, an extremely beautiful girl, steals a wallet from a fellow passenger. Nellie fearing detection slips the wallet into the pocket of James Blair, another passenger who is finally convicted and sentenced to two years in the chain gang.

Nellie feels deeply the injustice she has done. She gets a friend named Mulligan to help Blair escape. Blair is brought to the rendezvous of the thieves in the slums of San Francisco. The girl offers to do anything that she can to recompense Blair for the wrong she has done him. Still he is bitter toward her. To keep away from the police, they go to a mining town in Alaska.

This picture together with the William Fox sunshine comedy "The Self Made Lady." This is said to be one of the most laughable comedies seen at this theater in quite some time. The Cleveland magazine and our incomparable orchestra help make a program that is sure to please all.

To My Auditorium Friends

I know you will be glad to learn that a new Theda Bara super production is about to be shown in our city. "The Forbidden Path," the latest picture made by the noted star for William Fox, has been booked by my theater, the Auditorium, and will begin a run of two days here on next Monday.

"The Forbidden Path" shows Miss Bara in all the vividness and power of the parts she is so noted for. Beginning life as a penniless girl of lower New York, she first gains comfortable means as an artist's model. There she meets a wealthy young blade who promises to marry her, but fails to live up to his promise.

The girl's baby dies of exposure in a storm. She descends rapidly to the very dregs of humanity. Then she meets again the man who had caused her fall.

He is about to be married to a very wealthy woman of his own set. The poor girl reveals the whole story to the betrothed, and together they plan a revenge which is at once forcible and dramatic.

Just what this is, I shall not tell you. I want you to come and learn for yourself. I want you to be able to enjoy this picture as much as I enjoyed it when I first saw it. I know you will, if you see it.

Geo. M. Fenberg.

Miss Mary Radford is the granddaughter of the late Rear Admiral William Radford, of Civil war fame, and she will christen the U. S. destroyer "Radford," which is to be launched at an Atlantic port this month. Miss Radford, like many other Washington girls, has a government war job.

MANUFACTURER OF COLUMBUS ARRESTED AS A GERMAN SPY

Columbus, O., April 5.—Trained as a spy suspect for two years by department of justice agents, George von Rottweiler, president, and manager of a local motorcycle manufacturing company here, is in jail at Rochester, N. Y., shortly after he had been commissioned a captain in the United States army, it was learned authoritatively here.

His companion and employee, Frank H. Newbert, a skilled mechanic, was arrested at the same time, it was learned.

Both, according to the information, are held on a technical charge of investigation of their citizenship. Both men are said to be subjects of Germany and have failed to register under provisions of the alien enemy act.

Rottweiler, who with his wife and two young daughters, lived in exclusive apartments here, first fell under the suspicions of the department of justice agents two years ago when a Chicago woman friend of his unguardedly remarked to her employer that "Rotty" was a paid agent of the German government. In a spirit of boastfulness the woman is alleged to have added that "He had mapped the St. Lawrence river for Germany and that he concealed explosives in the bank of the river for use by the Germans upon their projected arrival in this country."

The woman's employer is said to have reported the incident to the department of justice, which immediately placed Rotty under surveillance. He was arrested at his plant here a week ago by a United States marshal from New York and was taken east.

The arrest came only a short time before he was to have gone to Washington to become a captain in the ordnance department. His exceptional ability as a mechanical mathematician won the commission for him.

Newbert was foreman in the finishing department of Rottweiler's plant.

In talks with friends, Newbert is alleged to have asserted that he was among the crew of a captured German raider and imprisoned by the British early in the war in India. He says he escaped as a stowaway on a Norwegian merchantman and arrived at San Francisco about two years ago. Newbert says he came to Dayton, O., seeking work and there met Rottweiler and was employed by him as foreman for the Columbus plant.

PRIVATES EXECUTED FOR MURDER.

(Associated Press Telegram)
Houston, Tex., April 5.—Privates John R. Mann, and Walter Matthews (colored) were executed at Camp Logan this morning for the murder of Private Ralph M. Foley, company G, 130th infantry.

IS APPOINTED JUDGE.

Columbus, April 5.—Governor Cox has appointed Ralph A. Beard, of Youngstown, Democrat, common pleas judge of Mahoning county to succeed W. P. Barnum, resigned. Beard formerly served two terms as prosecuting attorney of the county.

KILLED IN RUNAWAY.

Wapakoneta, Ohio, April 5.—Caroline Shepline, 21 years old, single, living east of here, was yesterday thrown from a hay wagon and killed, when the team she was driving became unmanageable.

Never hit a man when he has you down.

REVERSES THE STORY TOLD BY CZERNIN

(Associated Press Telegram)
London, April 5.—The Neue Freie Presse, of Vienna, taking a hand in the peace offensive of the central powers, reverses the Clemenceau story told by Foreign Minister Czernin. It says that before the offensive on the western front President Wilson and Premier Lloyd George favored discussing peace terms but Premier Clemenceau vetoed the suggestion and finally caused them to adopt his standpoint of war to the end. The paper adds:
"It is impossible to confirm this report absolutely, but there is considerable truth in it."

LIBERTY LOAN CAMPAIGN OPENS WITH ENTHUSIASM

(Associated Press Telegram)
Cleveland, April 5.—Fourth federal reserve district officers are enthusiastic over the outlook for raising the districts quota of \$300,000,000 in the third Liberty loan campaign and express confidence that the oversubscription figures of \$186,000,000 of the second loan will be surpassed.

What is thought to have been the opening of the campaign in the district was celebrated in Dayton last night, when a dozen bands led a monster parade through the downtown streets, after which Governor Bamberger of Utah, was the principal speaker at a mass meeting.

A parade in which students of Mt. Union college and the Alliance high school will participate will open the campaign in Alliance tonight. In Ashland county, the campaign opens tonight with a mass meeting at Ashland, and in Niles students from the various schools will address a patriotic gathering at the opening.

An additional feature of the campaign in Cleveland is a trench constructed at a prominent downtown intersection. Officers from Camp Sherman who have seen European service supervised the work. A band from the Chillicothe cantonment will give a concert at the trench Saturday night.

BELIEVE PEACE TERMS ARE IN THE MAKING

(Associated Press Telegram)
Zurich, April 5.—Austrian parliamentary circles believe that negotiations have been opened between President Wilson and Count Czernin, the Austro-Hungarian foreign minister. A telegram from Vienna to the Neubebe Nachrichten of Munich, says:

"Count Czernin's speech has created a profound impression in Austrian parliamentary circles, where it is believed that communications have been opened between Count Czernin and President Wilson, which already have reached further than Count Czernin's statement shows."

ENDS LIFE WITH POISON.

EASY HOME TREATMENT

REDUCES SWOLLEN VEINS

Reports That Veins Can Be Reduced to Normal and at a Trifling Cost.

Don't wait until it is too late before you start to do something worth while for those enlarged veins. Physicians who are in a position to know are recommending a powerful germicide that speeds causes enlarged or varicose veins and bunches to become normal. Ask any first class druggist for an original two-ounce bottle of Moone's Emerald Oil (full strength) and refuse to accept anything in its place. It is such a highly concentrated preparation that two ounces lasts a long time and furthermore if this wonderful discovery does not produce the results anticipated, you can have the price refunded. It is not wise for anyone to allow swollen veins to keep on enlarging. Often they burst and cause weeks of pain, suffering and loss of employment. Apply Emerald Oil as directions advise and improvement will begin at once. Evans Drug Store can supply you.

Economize Wisely —A Maxwell Car Will Help

Waste is often committed when the intention is to economize. A Maxwell car, famous for its economy, will cost you only a few dollars a month to operate and maintain.

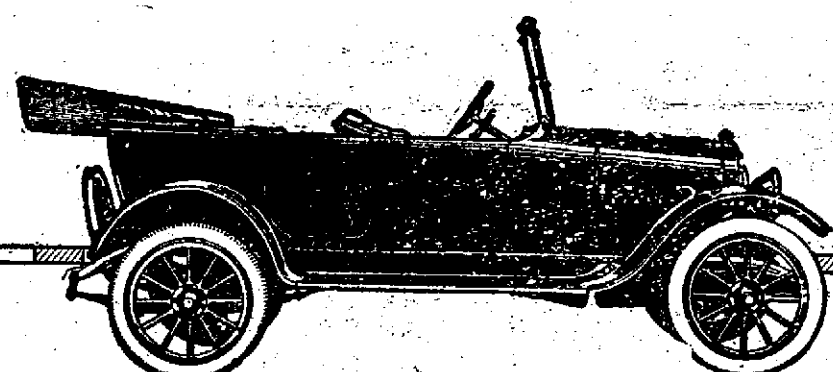

Which is the real economy:

- (1) To use the car and save time, strength, and mental vigor?
- (2) To do without the car, lose time in your business, lose the health gained from motoring, and worry yourself into illness?

Use of a Maxwell car will give you self confidence. Your neighbors and associates will get mental inspiration from you.

As wave circles widen when a pebble hits the water, so will your good example benefit your entire community.

Save—yes; but do it sensibly, and let the Maxwell help.

KIRKERSVILLE IS TAKING A BOOM

(Special to The Advocate.)

Kirkersville, O., April 5.—Gustie Legg, intending to discontinue his work in the carpentering line, has given up his work in Columbus to open up a restaurant business in this town on a different scale than it has been conducted for some time. It is being noised about that he will cater to the transit trade that passes through the town via motor. The sale of candies and tobacco will be done away with in order to give time and space for the proper handling of the customers that stop enroute to points of various distances that are accessible from the National Pike. During the entire winter and through the early spring the travel along this highway has been very heavy, and the parties that disembark in the town has not been a few. The transfer of this restaurant property is another addition to the sum of between \$35 and \$40,000 worth of property that has changed hands within the last ten months. The past two years has seen \$50,000 of building done in the little town and lots have been sold that are intended to be decorated soon with good substantial residences of a class of people that go far toward making a real town. The little berg has a \$40,000 school of the first grade and equipped as good as any city school. A \$5,000 Grange and two modern churches, three general stores, a good garage, a first-class hardware store and tinners shop, two physicians and a real estate agent. During the spring the freight agent ships out 30,000 crates of strawberries and bills flour and grain all the year around from the Geigers mill. With all the sheds and tumble down shanties removed all that is left to do this summer will be the friendly rivalry in property appearances.

PURCHASES COUNTRY PLACE NEAR HERE

Columbus, O., April 5.—Benjamin G. Dawes, of 540 East Broad street, has purchased a country place in Licking county, and with his family will spend a portion of each year there, alternating during the summer season, between that place and his country home on the Muskingum river, north of Marietta. The new farm that Mr. Dawes has acquired contains about 150 acres, and is situated about five miles southeast of Newark, a mile and a half from the National pike. In addition to the land there is a fine old brick mansion which Mr. Dawes will improve and occupy. The farm is on an improved highway connecting with the National pike.

WAR-TIME CANDIES.

Here are some recipes for war-time candy which the children like, and which do not require much, if any, sugar in their preparation. Candies made from fruits and nuts are good substitutes for pure sugar candy.

Taffy Apples.
Wash and dry six large or eight small apples which have no bruises or spoiled spots. Apples about two and one-half inches in diameter are an attractive size to use. Push a wooden skewer, such as may be obtained at meat markets, or a smooth stick will do, firmly into one end of the apple. Make a sugar syrup, using two cups sugar, one cup boiling water, and one tablespoon lemon juice. In place of all sugar I use about three-fourths glucose or corn syrup.

I often use some brown sugar or maple syrup until a little dropped into ice water will crack and snap between the fingers—or if you have a sugar thermometer boil to 200°.

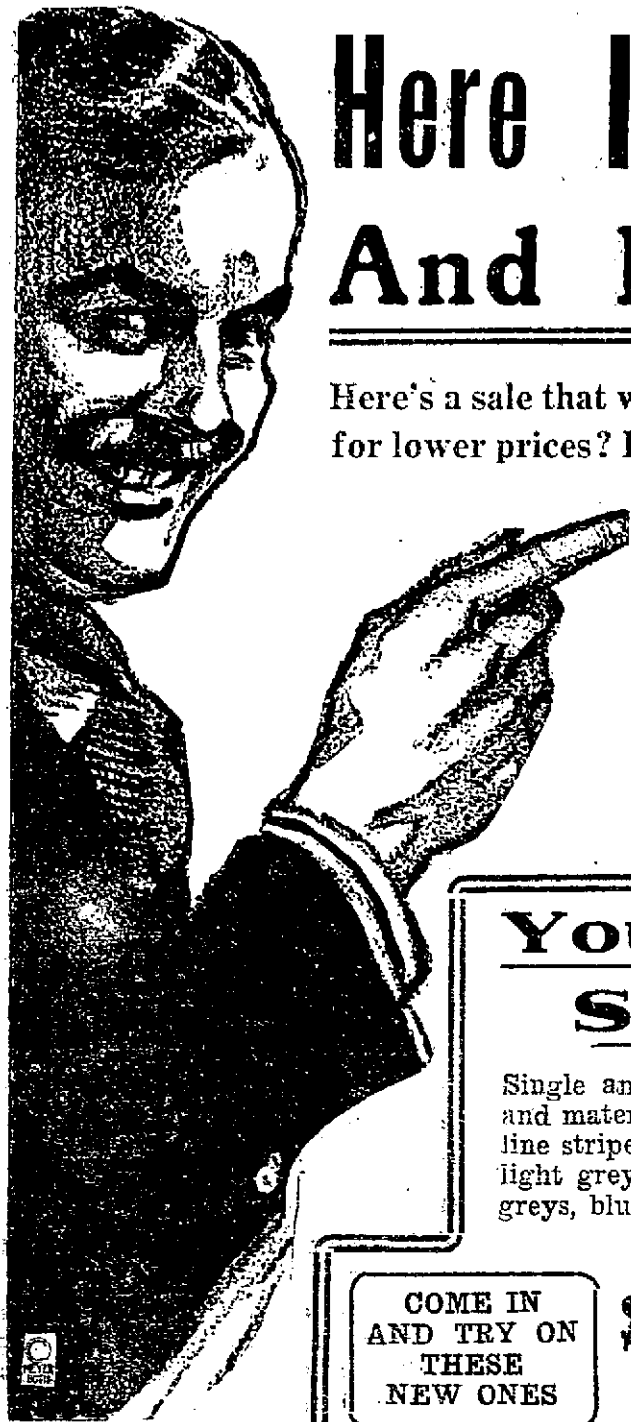

Dip the apples into the syrup and whirl round and round till the apple is coated all over. Let stand till the syrup has set firmly. Children eat these from the sticks as they do "ball-dogs" suckers.

Cocoanut Balls.
Grind shredded cocoanut and nut meats of any kind in a food chopper. Form the mixture into little balls about three-fourths inch in diameter. A small amount of glucose or corn syrup may be added to help in mixing together if it crumbles to pieces. Roll the balls in coco.

Fruit Bars.
Chop coarsely dates, figs, raisins and nut meats of any kind in a food chopper. Form the mixture into little bars. If the fruit is not moist enough add down one side and opening, insert a peanut or other nut meat in its place and press the date together again. Roll in a very little granulated or powdered sugar makes them more attractive, but this is not necessary. Farm Life.

THE HUB

THE STORE WITH THE SPIRIT OF VALUE GIVING

Building-up for the Spring Attack at the Front is a good deal like putting the body in condition for an invasion of the germs of grip, pneumonia or "Spring fever" here at home.

At this time of the year most people suffer from a condition often called Spring Fever. They feel tired, worn out, before the day is half thru. They may have frequent headaches, and sometimes "slimy" or pale skin and white lips. The reason for this is that during the winter, shut up with in doors, eating too much meat and too little green vegetables, one heaps fuel into the system which is not burned up and the clinkers remain to poison the system—a clogging up of the circulation—with inactive liver and kidneys. Time to put your house in order. For an invigorating tonic which will clarify the blood, put new life in the body, sparkle to the eyes, and a wholesome skin, nothing does so well as a glyceric herb extract made from Golden Seal root, Blood and Stone root, Oregon grape root and Wild Cherry bark. This can be had in convenient, ready-to-use tablet form at all drug stores, sixty cents, and has been sold for the past fifty years as Dr. Pierce's Glyceric Medical Discovery. By reason of the nerves feeding on the blood, when the blood is pure the nerves feel the effect, and neuralgia or other nerve pains disappear—because such pain is the cry of the starved nerves for food. When suffering from backache, frequent or scanty urine, rheumatic pains here or there, or that constant tired feeling, the simple way to overcome these disorders is merely to obtain Dr. Pierce's Glyceric from your druggist. In tablets, sixty cents.

Don't take Quinine

WHY SPRING BRINGS OUT FRECKLES AND ERUPTIONS.

The sudden appearance of freckles, slight eruptions or fine lines at this season is attributed by scientists to the "actinic rays," which is unusually active during the spring months. Where the skin is so affected by this influence, if one will procure an ounce of common mercuric iodine, and mix with store, apply a little of it before retiring, like cold cream, and can easily overcome the trouble. When the wax is washed off next morning, minute flaky skin particles come with it. The entire outer cuticle is removed in this way in a week or two, with all its defects. No bleach could so effectively remove freckles or blemishes. The new surface is smooth, clear, fresh looking. No pain or inconvenience accompanies this simple treatment.—Adv.

MEATLESS DAYS ABOLISHED FOR THE NEXT MONTH

Meatless days have been abolished by the food administration for a period of thirty days according to instruction received.

It seems that an over supply of pigs on the market, and lack of transportation facilities, have made it necessary to make the meat.

The administration office also states that the large amount of milk and potatoes with the abolishing of meatless days, should cause a greater conservation of bread.

SOCIAL EVENTS

SOCIETY EDITOR, AUTO PHONE 2312.

Allen—Aeken.

Mr. and Mrs. Otis K. Allen of Ashland, formerly of this city, announce the marriage of their daughter, Helen Elizabeth to Mr. Charles Lewis Aeken of Ashland and Oberlin on Saturday, March 30th. The ceremony was performed by Rev. R. A. Wells of the Christian church of Akron. They will make their home with the bride's parents at 251 East Third street, Ashland.

Mrs. Aeken who is a granddaughter of Mr. and Mrs. Harry Allen of Penny avenue is well known in Newark. Mr. Aeken is the son of Mrs. Mary Aeken of Oberlin.

Miss Jessie Simpson very pleasantly entertained at her home in Linden avenue, last evening with a miscellaneous shower, honoring Mrs. Amos Burton nee Nettie Campbell.

The evening was very enjoyably spent in music and games while Mrs. Burton was the recipient of many beautiful and useful gifts. Little Misses Elmore, Edna and Virginia Simpson assisted the hostess.

At a late hour a delightful lunch was served to the following guests: Mrs. Amos Burton, Mrs. Ralph Richardson of Columbus, Mrs. Roy Toothman, Misses Leah Orr, Bernice Catt, Clara Bragg, Beulah Murray, Helen Heim, Helen Gildow, Fay Shier, Amelia McCroskey, Mary Ellen Avery and the hostess.

Goodwin—Ingman.

On Thursday afternoon at 5 o'clock the marriage of Miss Helen Ingman and Mr. Cary Goodwin, was solemnized at the Trinity Episcopal church, Rev. L. P. Franklin reading the marriage service.

The bride was attended by Miss Lenora Phillips, while Capt. Verne Priest was Mr. Goodwin's best man. The bride wore a traveling suit of midnight blue with a beige hat. Her bouquet was a corsage arrangement of sweetest roses, and she carried a prayer book.

Miss Phillips wore a suit of green silvertone and her bouquet was a corsage of sweet peas and roses.

Mr. and Mrs. Goodwin left on a wedding trip of two weeks in New York. The bride's home is in West Main street, and she was a former student at Wooster University and has specialized in music. She studied pipe organ at the Cincinnati Conservatory of Music and was a member of the Alpha Gamma Chi sorority. She has been organist at the East Main street M. E. church for the past year. Mr. Goodwin lives in West Church street and is traveling representative for the Universal supply company.

Mrs. Thomas E. Adams was hostess to the members of the Harmonious club at her home in Cranville street on Tuesday afternoon. The time was spent in knitting blocks for a comforter and luncheon was served the members and following guests. Mrs. Eugene Hartshorn, Mrs. Robert Adams and Mrs. R. F. Anderson of Minneapolis.

The Women's Music club met Thursday afternoon at the home of Mrs. John H. Franklin in West Church street. The program for the afternoon was a miscellaneous one consisting of compositions by modern composers. Mrs. Thos. J. Daly told something of interest concerning each composer represented on the program and also read a number of current events.

The program for the afternoon was as follows:

Slavonic Dances, No. 2 and 6. Dvořak. Mrs. C. E. Cochran, Miss Bess Larkin.

(a) Cradle Song 1915. (b) The Old Refrain—Kreiser. Mrs. H. F. Moninger.

Rondina on Theme of Beethoven—Kreiser. Miss Martha Fluschnitz. The Lark—Balakirev. Miss Mildred O'Keefe.

The Sea; (b) The Robin Sings in the Apple Tree.—Miss Ruth Ditter.

Largo from Sonata Tragica Op. 45—McDowell. Mrs. C. F. Lytle.

Morning and Evening—Chaminade. Miss Larkin. Mrs. Lytle.

Accompagnists. Mrs. Franklin, Miss Larkin, Mrs. Lytle.

All active members are asked to bear in mind the date, April 11th as the annual business meeting date.

St. Luke's Commandery No. 34 Knights Templar will entertain with the annual dinner and ball at the Masonic Temple on Tuesday, April 9. Dinner will be served at 6:30 o'clock followed by dancing at eight o'clock.

RED CROSS TO CARE FOR 50,000 CHILDREN

(Associated Press Telegram)

Paris, April 5.—The American Red Cross is making arrangements in cooperation with a committee of carians to send 50,000 children of this country to a provincial center where they will be cared for during the summer school vacation.

Time works wonders. Many a boy who wears his hair in curls until he is 7 is chewing tobacco at 11.

SCOFFERS AND DOUBTERS

Why Let Prejudice Bind you to a Life of Rheumatic Torture.

Be fair to yourself, you sufferer from rheumatism, no matter what form. Go to T. J. Evans or any good druggist and get a package of Rheuma, the guaranteed prescription. Use the entire bottle, and if you don't think it has given you quick and sure relief, say so, and you can have your money back.

Isn't that a fair offer? Can you see any deceit or red tape about it? What chance do you take? Absolutely none.

Then get a bottle of Rheuma today. It's a reputable physician's prescription, altogether different from remedies usually prescribed, free from narcotics, and perfectly harmless. Rheuma acts on the kidneys and helps to force the uric acid from the swollen joints and other lodging places. It pleases you in a day; it makes you hopeful and happy in a week. It has released from bondage rheumatic sufferers who thought nothing would give relief. It should do as much for you—it seldom fails.

Don't miss this money-back offer. A large bottle, sufficient for two weeks' treatment, is inexpensive.—Advertisement.

In common pleas court on Friday the court heard the evidence of the witnesses in the case of George L. Sdartz vs. J. W. Hursey, et al. The suit is brought to restrain the collection of an assessment for the improvement of the Jacktown Pike. The court took the case under advisement and will announce a decision hereafter.

George Taylor, admr. vs. Ohio Electric Ry. Co., a suit for damages: Passed for trial April 24.

Answer and Cross Petition.

An answer and cross petition has been filed in common pleas court by the defendant in the case of John Miller vs. The Pan American Coal Co. In the answer the W. H. Warner Co. says that they know nothing of the matters and things alleged in the plaintiff's petition.

The defendants say in their cross petition that on November 24 at a meeting of the Pan American Coal Co., a dividend of a little over 6 per cent was declared on the capital stock; that on Nov. 26 for the sum of \$22,200 paid to the plaintiff, the plaintiff sold to the defendants 222 shares of the capital stock of the above named company and as a part consideration for the purchase, transferred to the defendants the dividend that had been declared on Nov. 24. The defendants say that the dividend amounted to \$1,337.32, which amount the defendants pray the court order the plaintiff to pay to the defendants.

TAKE LIBERTY BONDS; BUY W. S. STAMPS, TOO

Out of Accumulations, Buy Bonds; From Economies, Stamps.

Columbus, O.—(Special).—State headquarters of the Ohio War Savings Committee, Columbus, has been besieged with this question: "What is to become of the War Savings and Thrift Stamp campaign during the Liberty Bond Campaign?"

Harmony of action between the Ohio Liberty Loan committee and the Ohio War Savings Committee is very complete. There will be no concerted opposition of one organization toward the other, although the treasury department wants competition between the two governmental loans. It is expected that each campaign will stimulate the other.

Here's the suggestion made to Ohio people by the State War Savings Committee:

"If you can't buy a Liberty Bond, buy War Savings Stamps.

"Out of your accumulations and income buy Liberty Bonds; from your savings and economies, buy War Savings Stamps."

There are thousands and thousands of people in Ohio who are wholly able to take large blocks of Liberty Bonds; these same people are buying War Savings Stamps. There are other hundreds of thousands who cannot afford Liberty Bonds, but who should commence buying War Savings and Thrift Stamps, if they have not already done so, the state committee advises.

"Great financial operations of the government cannot be carried forward successfully unless people of the United States economize in every possible direction, save their money and lend it to the government," the state committee says. By so doing, it is explained, the people of the country are "at the same time increasing their material prosperity by their savings, and they are directly helping their government by lending it the money with which it can buy the necessary supplies and command necessary services to make our fighting forces stronger and more effective in the field."

"The War Savings Campaign has had the influence of bringing home to the people of this country the government's need of personal economy and has impressed on millions of people the necessity of participating in both the Liberty Bond and the War Savings movements."

"Remember, that the 'widow's mite' ranks as one of history's greatest acts. The only thing to be ashamed of is not that one's contribution is small, but that you made none at all."

Which would you rather do, just break even in your business this year or leave a leg in France? Boost War Savings Stamps and save some American soldier from a legless or armless existence.

OHIO LEADS IN W. S. SOCIETIES

Has Nearly Fifty Per Cent More Than Next Highest State.

Columbus, O.—(Special).—In the number of War Savings Societies organized, Ohio is leading all other states in the country by practically 50 per cent. Pennsylvania stands second; Indiana, third and West Virginia, fourth.

In this state, there have been close to 3,000 societies formed since the opening of the War Savings and Thrift Stamp campaign. Records from Washington show that, to March 16, 11 states had formed no societies.

Purpose of War Savings Societies is to awaken a realization among men, women and children of the nation that in their hands lies the key to the successful prosecution of the war; that they can render most substantial service in genuine and practical thrift.

Give W. S. Stamps as Premiums.

West Union, O.—(Special).—The Adams County Agricultural Society will make an award of \$50 in War Savings and Thrift Stamps to the county school that shows the best record in purchase of stamps up to the time the fair is held next fall.

The society has arranged to pay all small premiums in War Savings and Thrift Stamps.

Passes Million Mark.

Cincinnati, O.—(Special).—The Hamilton County War Savings Committee has been informed from Columbus that this county is the first in the state to pass the \$1,000,000 mark in War Savings Stamp sales. Reports to March 14, show that sales totaled \$1,000,851.

Equally Enlightened.

Considerable importance is attached to the opinion of fish dealers in reference to the habits of fish. When they argue that six laws, less rigidly enforced, will assure the supply, men not familiar with the subject at once infer that they ought to know, and probably do know, what they are talking about. It would be equally fair to expect the dealer in cotton goods to know the growth habits of cotton.

Fish in storage, so far as the commercial agent is concerned, are the finished product, and it by no means follows that those dependent upon fish for a livelihood seek exact information relative to migration, spawning grounds and other technical data. Ask your dry goods salesman to tell you the life history of cotton, or the peculiarities of boll weevil—in the majority of cases what he says on these subjects will be as trustworthy and convincing as what the fish dealer says about mackerel and redfish.

New Affliction.

A North Vernon man stopping a youngster on the street the other day, made inquiry about his father, saying that he had not seen him for several days.

"Oh, yes," replied the boy, "my pa has got chestnuts on his lungs."

The man investigated and learned that the father was suffering from a slight congestion of the lungs.—Indianapolis News.

PUT UNDER WAR DISCIPLINE

Mother's Ingenious Scheme to Secure Respectful Attention From Her Small Boy.

There are small boys who are not very prompt to mind their mothers or who do not give their elders a respectful amount of attention when receiving orders. Yet some of them can be disciplined according to the methods used by an alert mother to whom the war gave the idea.

No longer is she, simply mother; she is, indeed, a person of far more importance to her militant young son—she's Captain Mother! Her imaginative boy is Private Billie, and, as he prides himself upon being a good soldier, you can guess that few of the captain's orders are ignored. Consequently, not only Billie's obedience is a thing to be proud of, but his comprehension and remembrance of orders given are greatly improved, for the captain has told him that he must stand at attention and salute when his name is spoken by a superior officer and that no orders will be given until Private Billie's eyes are fastened upon the captain's with undivided interest.

At the end of the week the private's record is reviewed, not only by the captain but by the family army's chief of staff—father. If the record is approved the captain threads a little metal button upon a ribbon, and, behold! Private Billie receives a decoration for his loyal service to the household and to his superiors. You can readily see how this war play makes obedience a wonderfully fascinating game and disciplines the lad beautifully at the same time.

NUISANCE ALL TOO COMMON

No Doubt the Majority of Our Readers Have Met at Some Time the "Big Money" Boy.

Step up a little closer, patrons, look 'em over good, then take your seats and set back for a listen. You know this windbag, the big money boy. Oh, yes! Go ahead, you tickle us. This pipe dream is always putting across some "big deal" expecting a "clean up," "got a tip," etc., and all that fat chatter. His melody goes a buzz this way:

"Well, things look merry for me, I'll say. Got in on a deal this morning; if it goes through, means much 'Jack,' a 'gas roller' and easy picking for me to last some moons. Can't tell you what it's about just yet. Backed up by so and so of the so and so corporation, and he's sinking all his interest collection on it, so you see what a blazer it is or he wouldn't be in it. I'm to be one of the main squeezes, hold stock, and go on the road at \$100 per Saturday, 25 per cent commission and traveling expenses," etc., etc.

Listen!—This rummy has more wind than a deck of cyclones. He imagines more money in an hour than the mint turns out in a month. Call his bluff and tell him to go settle his laundry bill with the Chinaman. Remember: They are not putting signs up in the back windows, "President Wanted."—Washington Herald.

He Got His Coal.

The following story is vouched for by the representative of one of the largest coal interests in this city:

"An ingenious scheme was put through recently by a fairly well-to-do citizen in New York who was at his wits' end to replenish his depleted coal supply, having been turned down on repeated orders. Putting on an old suit of clothes he made application for a position as coal driver at one of the principal yards in his immediate locality. As there is a great scarcity of help to move coal at present, owing to the rigors of the cold spell, he was accepted without a minute's delay and was intrusted with a cart of coal and also with the bill of the same, on the basis of immediate cash from the customer whose legitimate order had been filled. The self-styled coal driver made remarkably quick time with his load which he straightway deposited in his own cellar. He returned in due course to the coal yard, turned over the cash and forthwith resigned his job as being too arduous for his taste.—Financial America.

ALLENDER VERY

MUCH IMPROVED

His Grateful Mother Gives All the Credit to Nerv-Worth.

If there is in your family or in that of your friend a weak, nervous, excitable child the following entirely new statement, recently made to Marietta's Nerv-Worth druggist, should have your careful consideration:

Will S. Richardson—I am very thankful for Nerv-Worth. It has helped my little boy. He was under the doctor's care and they didn't seem to help him any at all. So I bought one bottle of Nerv-Worth and can now see the difference in him. He didn't have appetite and NOW HE CAN EAT ANYTHING HE WANTS TO. Age 8 years.

MRS. REBECCA ALLENDER.

303 Greene St., Marietta, O.

Your dollar back at the T. J. Evans Drug store, Newark, if Nerv-Worth does not help YOU.

At Hebron, the Hebron Drug store sells Nerv-Worth; at Utica, the Utica Drug store; at Granville, W. P. Ullman, and at Johnstown, C. S. Howard.—Adv.

HERE'S A CHANCE

Ashtand, O., April 4.—A professional baseball team has been organized in Ashtand. The players will all be leaguers and the teams will be composed of such men as East, Burns, McEvoy, Daly, Stecker, Ward and others. The schedule is being made now, and the management is open for games with professional Class A-1 teams. Games are desired here for Saturdays and away from home Sundays. Address Sam Morganstern, Asht

"What Can I Do to Help Win the War?"

This question burns in every loyal heart. Here is the answer: Subscribe for the next Liberty Loan. Sell Bonds to your neighbors. Get the children of your town to buy Thrift Stamps. Save food. Write cheery letters to the boys at the front.

April Brings Many a Sunshiny Day

When winter clothes feel out of place and you want the new spring styles to wear. To you who have put off the purchase of your spring coat or suit, surely there will not be a better time to buy than now.

Quality Clothes Are Important These Days

Buying coats and suits nowadays is serious business. There is a lot to be careful about in addition to just surface appearance. Fabrics should be pure wool—for the best service—tailoring should be of the very finest to insure a garment against losing its shapeliness.

We believe that every woman with these ideas in mind will be interested in the

Wooltex Suits and Coats

They have many features which make them attractive as war-time purchases. It is a great satisfaction, too, to know that the coat or suit you wear bears the Wooltex Label, for this style-mark, more than anything else we know, means your complete happiness in style, fit and tailoring, and it means you will continue to get happiness from your purchase even longer than one season.

COMPLETE PLANS ANNOUNCED FOR THE NEW LOAN

(ASSOCIATED PRESS TELEGRAM)

Washington, April 5.—Final preparations were being rushed today for the opening tomorrow of the sale campaign of the third Liberty Loan.

Directors of the drive announced that forty thousand of the bonds already had been turned out by the bureau of engraving and printing and it was estimated that one hundred thousand will be ready by tomorrow. Thereafter the bonds will leave the press at the rate of 500,000 daily to supply demands for cash sales and immediate delivery.

Legislation necessary for floating the loan was completed yesterday when the house accepted minor amendments to the bill authorizing the issuance of additional bonds and President Wilson approved the measure.

Announcement of the complete plan for the new loan was made earlier in the day by the treasury department.

Here is the essentials of the new issue:

Amount \$3,000,000,000 and all subscription above that; interest rate 4-1/2 per cent; campaign period April 6 to May 4, date of bonds, May 9, 1918; maturity 10 years, or September 15, 1928; payment due five per cent on subscription; 20 per cent, Mar. 28, 35 per cent, July 18, 40 per cent, August 15; interest payable semi-annually, Sept. 15 and March 15; bonds of the first and second Liberty Loans may be converted into third Liberty Loan bonds, but bonds of the third loan are not convertible into future issues.

JUSTICE LENIENT WITH MORGUILLA ON FAMILY'S ACCOUNT

Joe Morguilla, who was fined \$25 and costs for not having secured his dog license, and committed to the county jail in default of payment of the same, by Justice D. M. Jones, was released last evening at 6 o'clock on account of the extreme poverty of his family—a wife and three small children.

Justice Jones has been giving the maximum fine in these cases and wants it understood that everyone must comply with the law in regard to the dog tax, although a person may have paid his tax, if he don't attach the tag to the dog's collar he is not complying with the law, so it behooves every dog-owner to see that his dog has the required tag on its collar. While the justice was a bit lenient in the above case in suspending the sentence, this does not mean that others will be treated the same.

WAR SAVINGS STAMPS

Cashier C. L. McCracken, Citizens bank, Johnstown, reports sales of W. S. S. for the week ending April 4 of \$3902 and a total sale of \$8,744.37. Mr. McCracken added four names to the One Thousand Dollar War Savings Society membership this week.

New members of the Licking County \$1000 War Savings Society are: Mrs. Susan M. Larwill, 74 Granville street, George Hill, Charles Shite, C. C. Pratt, Wm. A. Ashbrook, Johnstown, Joshua S. Von Ins, R. D. 2, Pataskala, Robert B. Bowie, Pataskala, William Rees R. D. 5 Pataskala, Andrew J. Hoskinson, Mrs. Martha Hoskinson, R. D. 1, Pataskala, M. Phineas Osborn, Pataskala, Mrs. H. B. Wilson, 164 South Fifth street, John S. Loughman, R. D. No. 1, Toboso.

The North Fourth street school, Miss Bertie Jones, principal, is "over the top." Out of an enrollment of 300 pupils 256 are buying war stamps and the school this week passed its quota of \$2400.

Interesting war pictures shown by a stereopticon, a lecture by Rev. G. B. Schmitt and a Thrift talk will be the program at the Kirkersville high school April 19.

Bankers, postmasters and other agents who sell 200 W. S. S. to one person (April price \$830) are requested to notify the Licking County War Savings committee, auto phone 23124, giving names and addresses of the purchasers. When special request is made the names will not be published but the committee desires a complete list in order that certificates of membership in the "Thousand Dollar Club" may be mailed. The state committee is about to furnish handsomely engraved certificates bearing the governor's personal signature. These are to take the place of the printed certificates that were recently issued.

Postmaster Geach of Granville is keeping up his great record, reporting sales for the week ending April 4, of \$3640.

Please read the four column wide announcement "A Business Proposition," in today's Advocate, on page 6.

Postmaster R. D. Brown of Pataskala announces war savings stamp sales amounting to \$20,512 cash up to April 1st. During the month of March Mr. Brown sold 1500 war savings stamps and 739 Thrift stamps making his total \$823 W. S. S. and \$180 Thrift stamps. In sending his report Mr. Brown calls attention to the fact that the population of Pataskala is 850 which makes the per capita sales \$24.13. This is a splendid record.

GRACE DOYLE, IN A "HELEN HOLMES STUNT," ACTS AS A LIFE SAVER

(ASSOCIATED PRESS TELEGRAM)

Toledo, April 5.—Discovering a tie spiked across the B. and O. track ten miles south of Toledo, near Perrysburg, at dusk last evening, Grace Doyle, 20, a country school teacher at Roschtown, ran down the track, removed her coat and with it flagged a train approaching rapidly.

It was a freight, followed closely by a heavy troop train. It took the freight crew twenty-five minutes to remove the obstruction.

Several troops trains had passed there within a few days, and it was evident that the person who spiked the plank to the track had information that another was approaching. Federal authorities have been notified.

THE SINGING SOLDIER.

One thing we must have to hold in our hearts: the true picture of the boys on the transport Tuscania when the final hour came. Discipline was there, we are assured, but what songs did they sing? In general terms the New York Globe speaks of our soldiers as "singing the battle cry of freedom," and one wonders if by some instinct the refrain from old Civil War days welled up in "Hurrah, hurrah, bring the jubilee," putting in the background the synecryisms of "Over There." Whatever it was, the truth is the Globe's words that "the spirit of America was in the songs that came from the sinkings of the hearts of a hundred million Americans, cheering them on to a redoubled effort. Not in hymns of hate shall our feelings find expression. Not in vain threats. Not in cries for vengeance. But as we, too, begin to feel the wounds of the treacherous enemy of mankind, the song that rose to the lips of our sons facing death shall swell our hearts with the love of honor, of liberty, of justice that alone makes war glorious. It dispels all doubts, that makes life and possessions dear to us only for what they count in the battle for victory.

"Over the rusted bodies of our soldiers dashed upon the rocks of the Irish coast we consecrate all that we are, all that we have, to the cause of man for which our fathers raised the standard on armies fight under in France. Of these fallen heroes, as men fall it is our part to be worthy. Cheering each other, they went to their deaths, cheering each other, they must bear their death, and counting not the cost, so set a goal that their deaths may not be in vain. Unhappily, unskillfully, we took up the burden of the war and, financially, ungenerally, we must carry it, determined only that we will fight as these boys fight that know their strength and the justice of their quarrel."

"They sang of America, those that bore our colors upon the waters that encircled them. So let us stand upon the shores take up their song, so let us still live to honor them that have fallen, and to carry on cheerfully and bravely, the struggle in which, ungrudgingly, they gave their lives."

THE OLD HOME PLACE.

Do you think Josh will be glad to get back to the old place? asked Mrs. Cornsness.

"I'm sure I will, replied her husband. What I've said about 'no man's land' makes me think a sight of him, peaceable, blundering, ground, such to be right satisfactory and soothing."—Washington Star.
